

4. Create a _Measures table and build the KPI Card

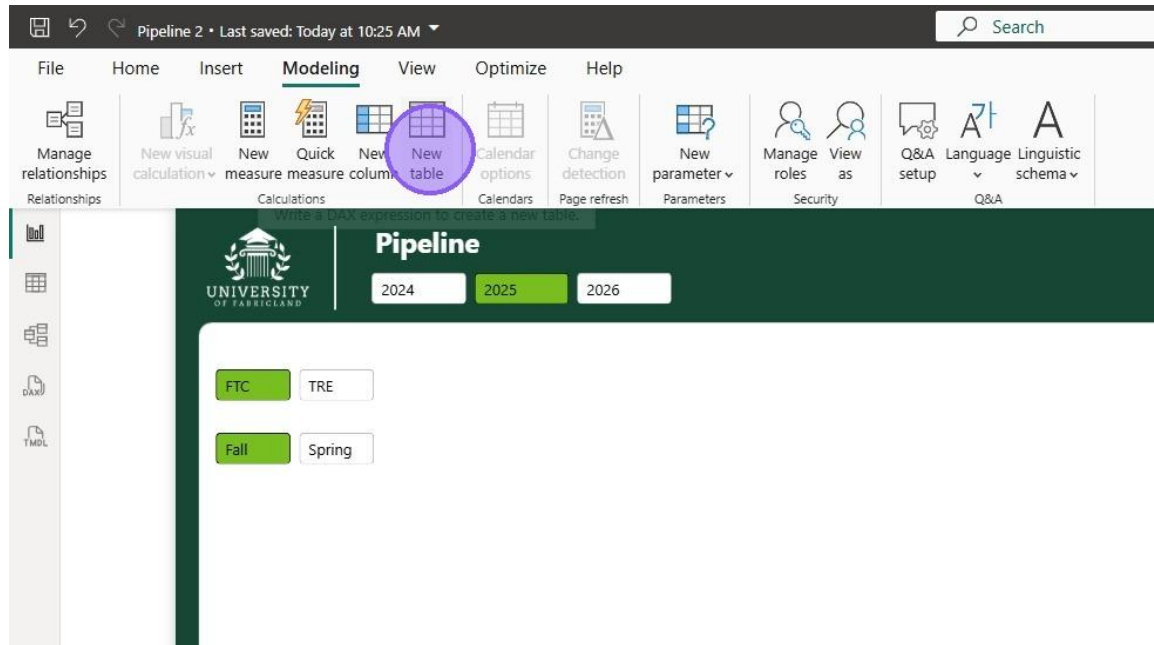

Let us add a few measures required for the visuals

Create _Measures Table

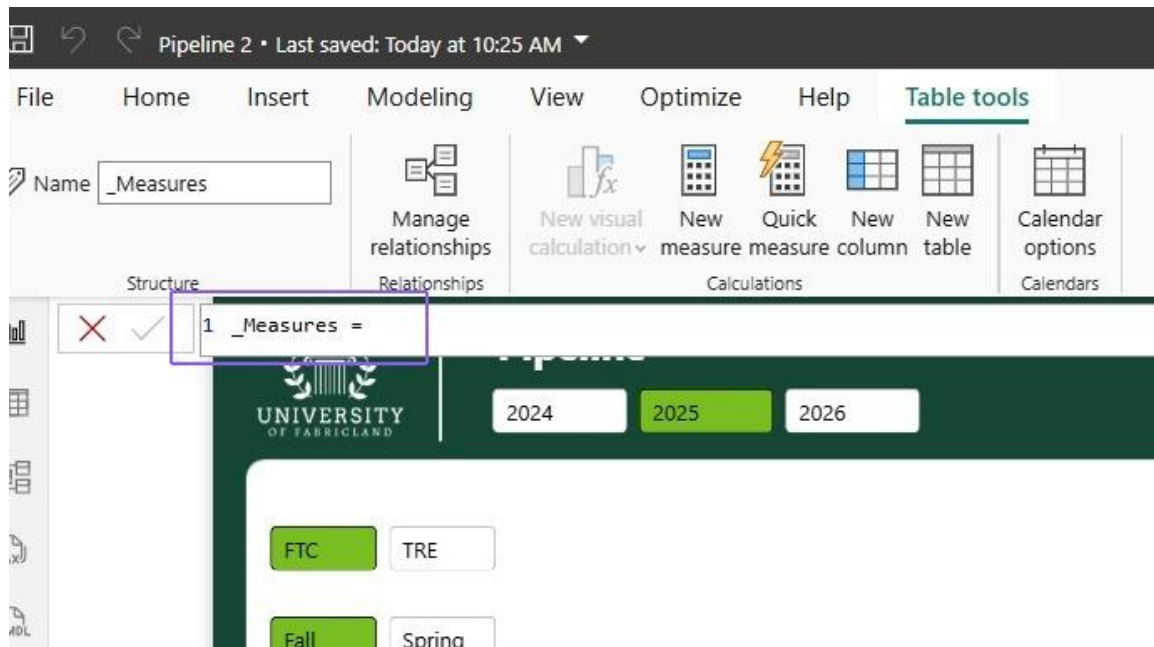

1. Select 'Modeling' tab

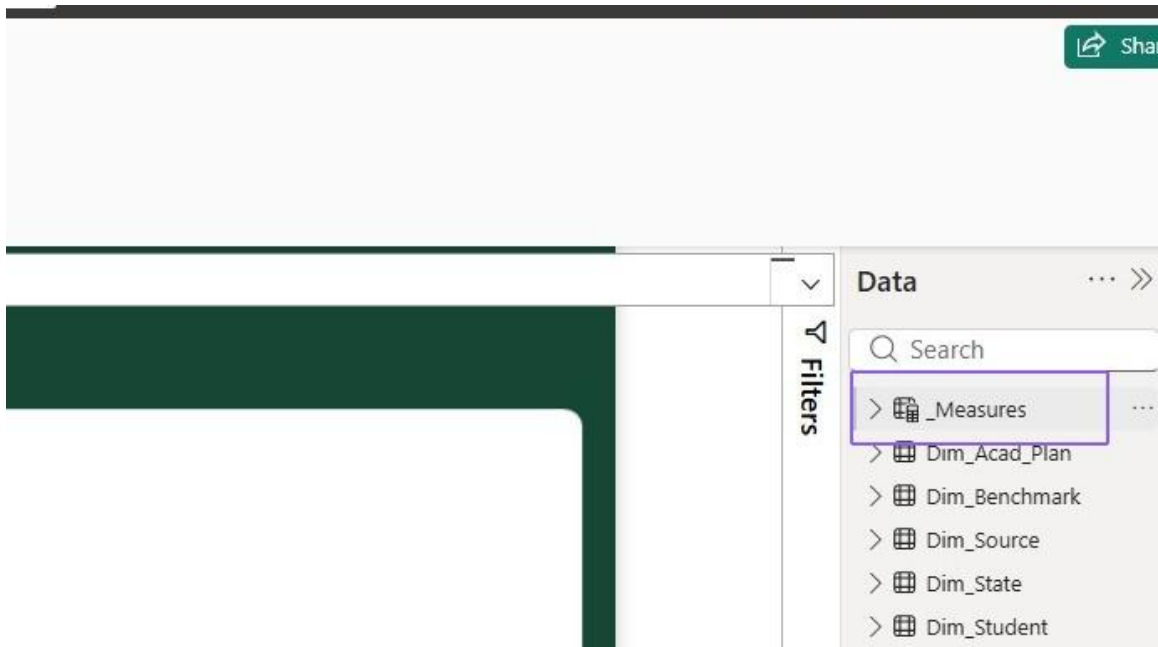

2. Click "New table"

3. Type '_Measures =' and then hit enter

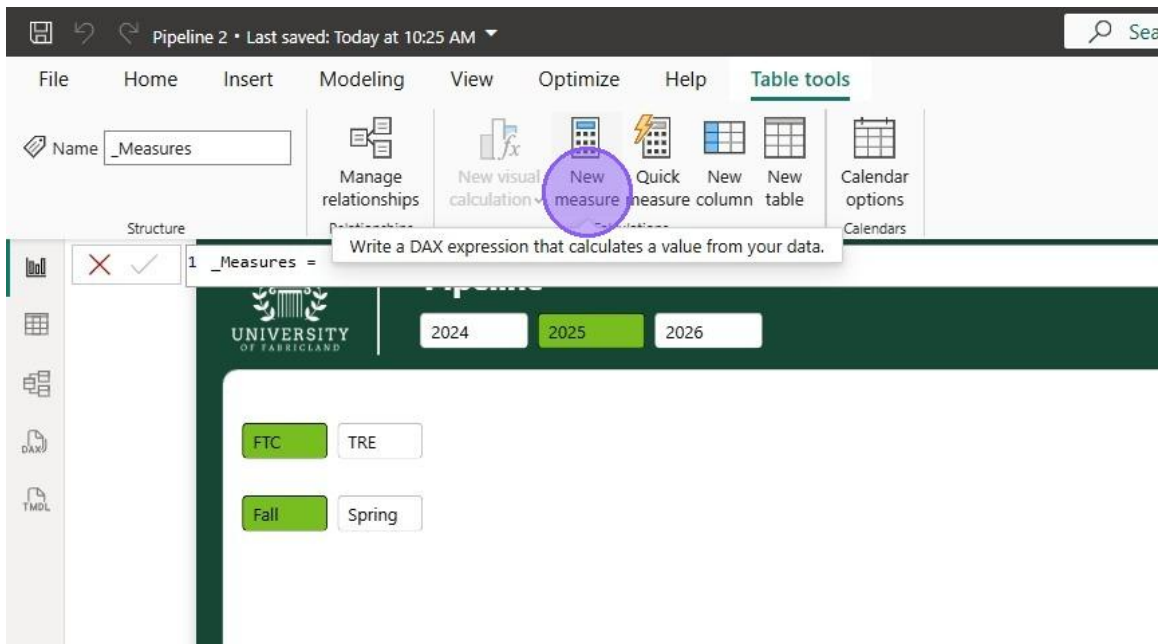

4. You should see the '_Measures' table

Create additional measures

5. Select 'New measure'

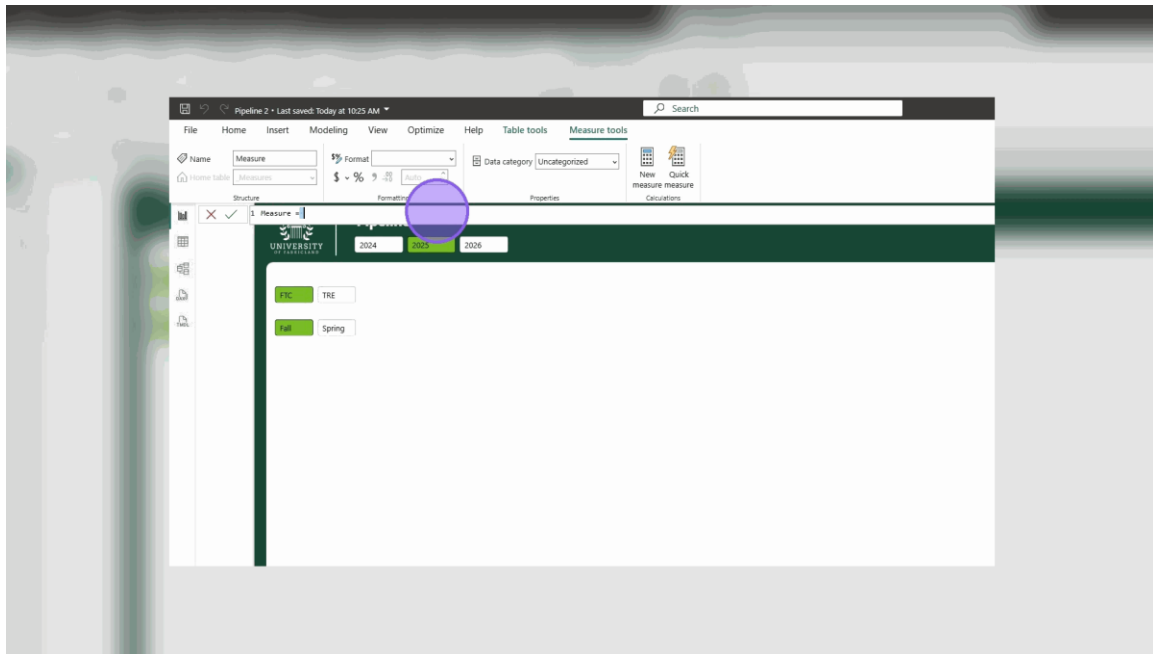

6. Paste the below DAX formula into the formula bar to create 4 new measures

Admits # =
CALCULATE(

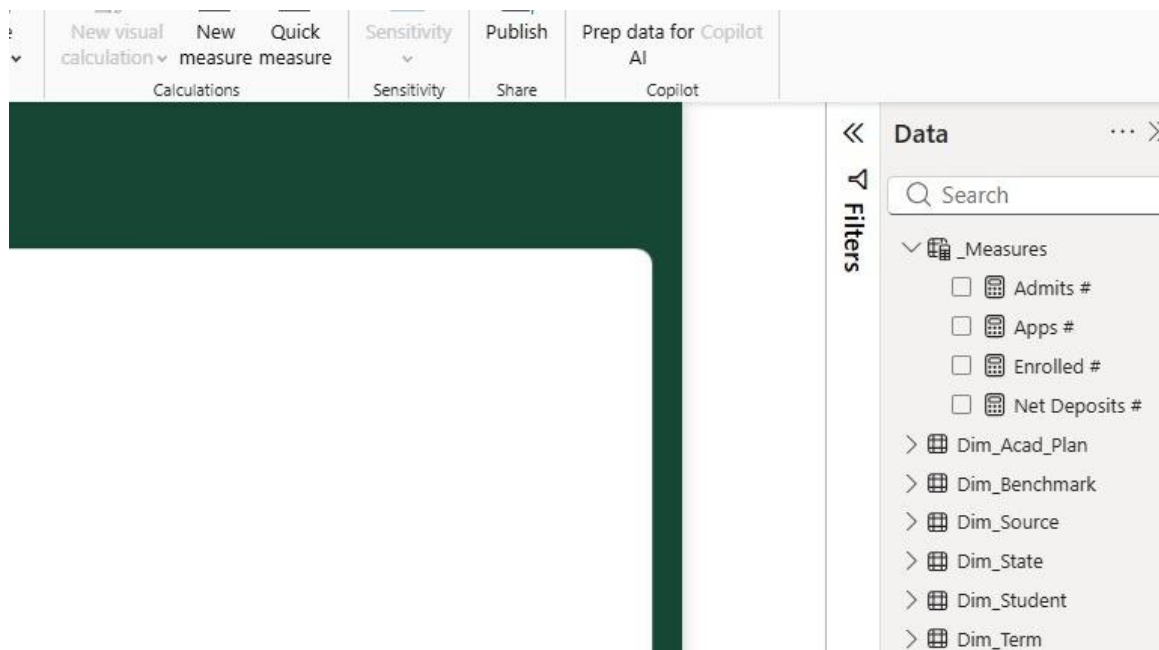

```

COUNTROWS( Fact_Applications ),
Fact_Applications[Is_Admitted] = 1
)
Apps # =
COUNTROWS( Fact_Applications )
Enrolled # =
CALCULATE(
COUNTROWS( Fact_Applications ),
Fact_Applications[Is_Enrolled] = 1
)
Net Deposits # =
CALCULATE(
COUNTROWS( Fact_Applications ),
Fact_Applications[Is_Deposited] = 1
)

```

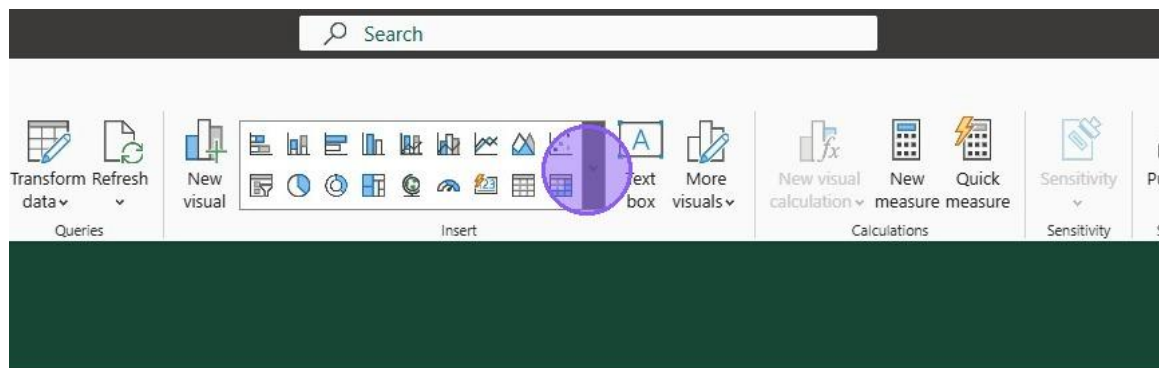

7. You should see this!

Build a KPI Card

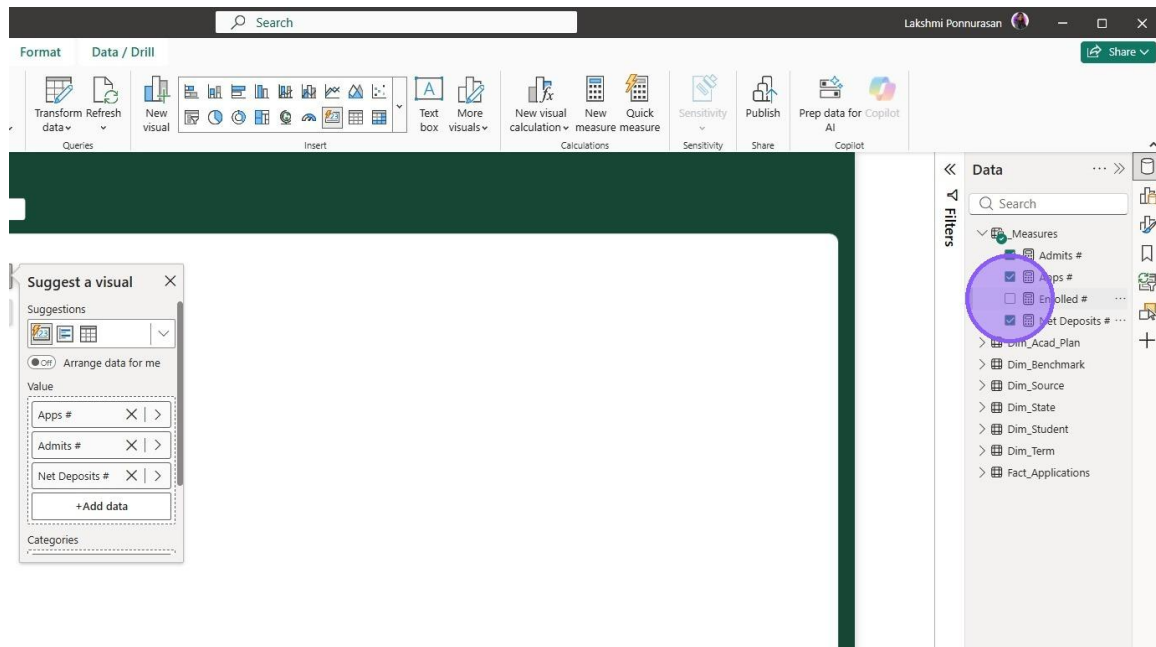

8. Click "Visual gallery"

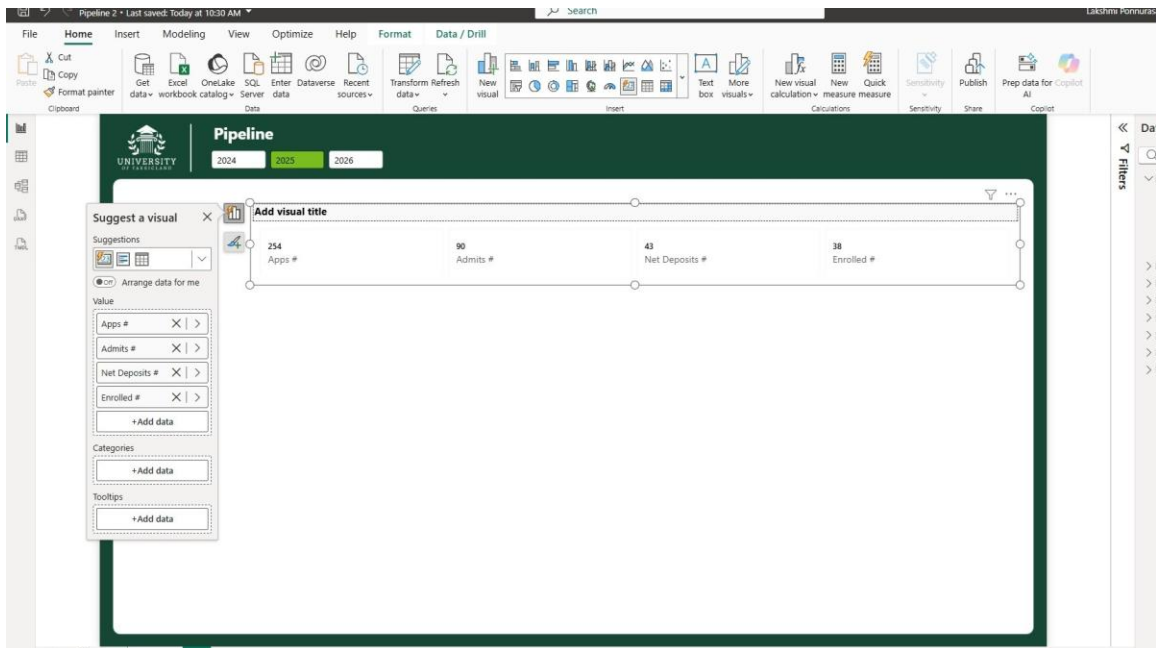

9. Click "Card"

10. Select the measures that we just created. Apps #, Admits #, Net Deposits #, Enrolled #

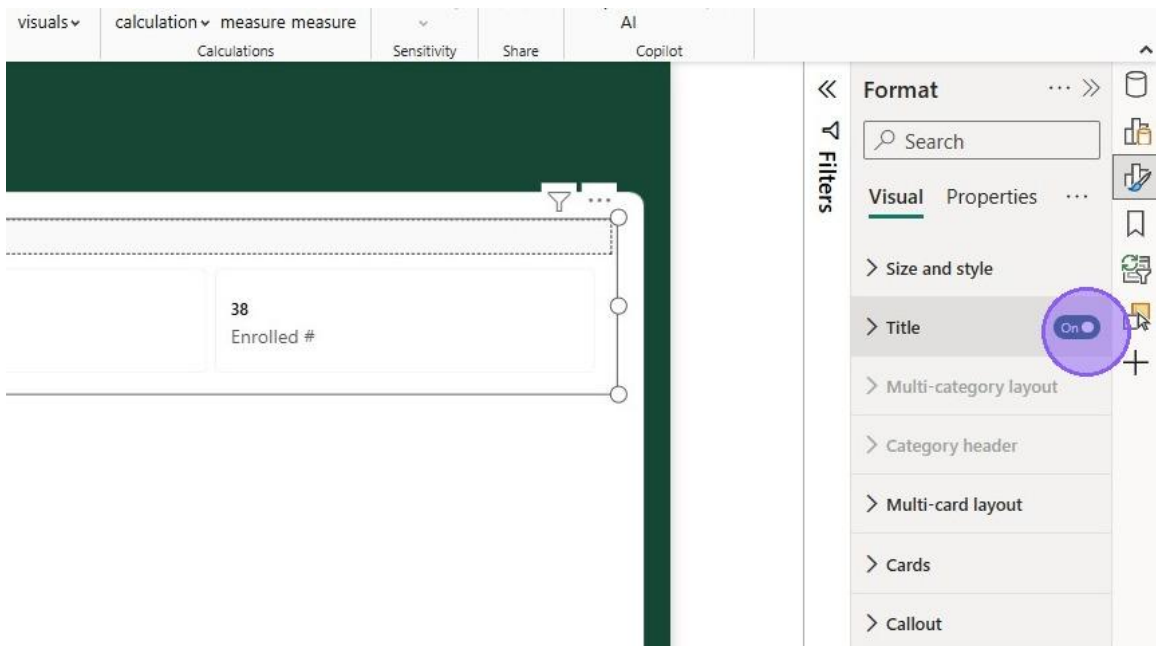

11. You should have something like this now.

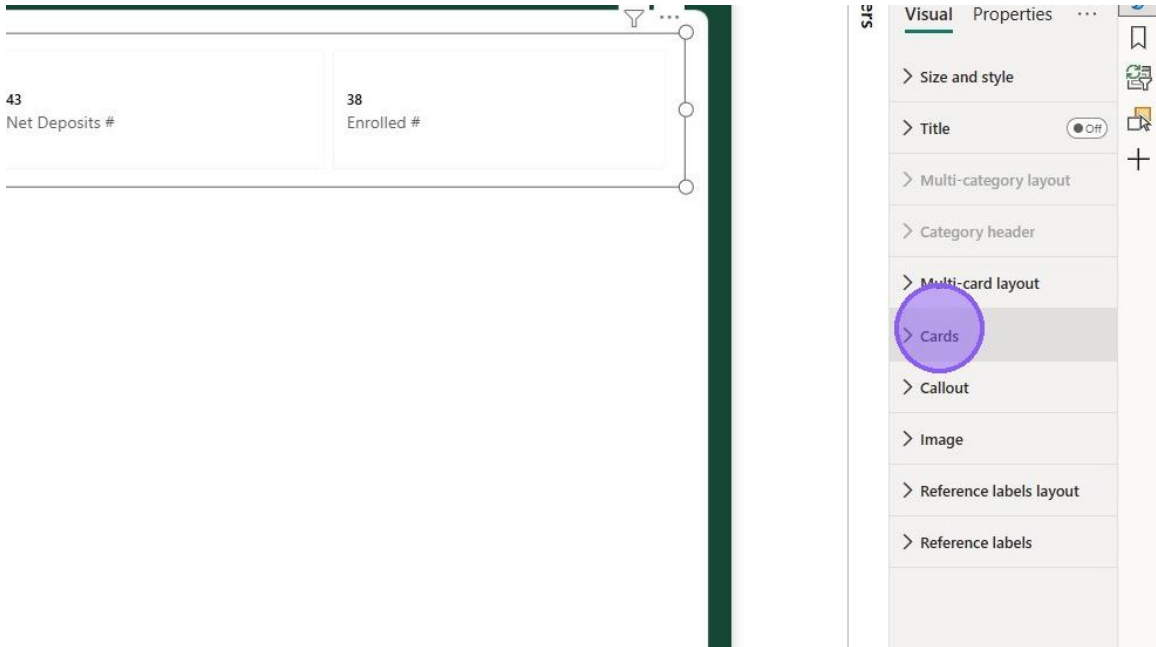

Format the KPI Card

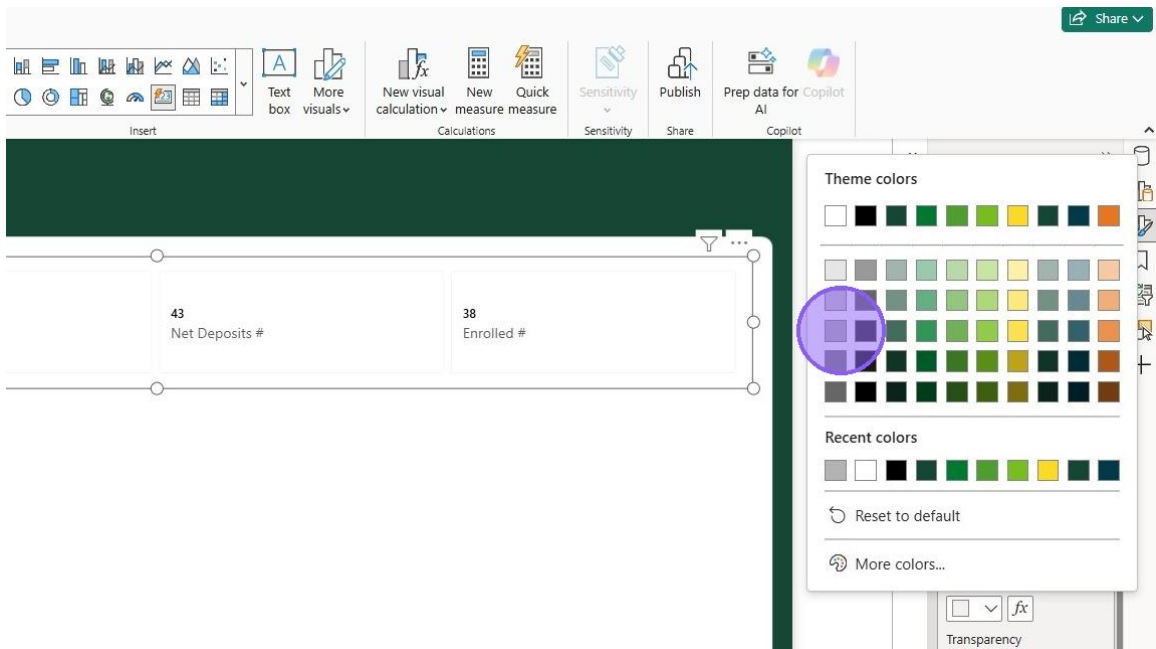

12. Switch off the Title

13. Click "Cards"

14. Change the border color to "White, 30% darker"

15. Click "Callout"

43 Net Deposits #	38 Enrolled #
----------------------	------------------

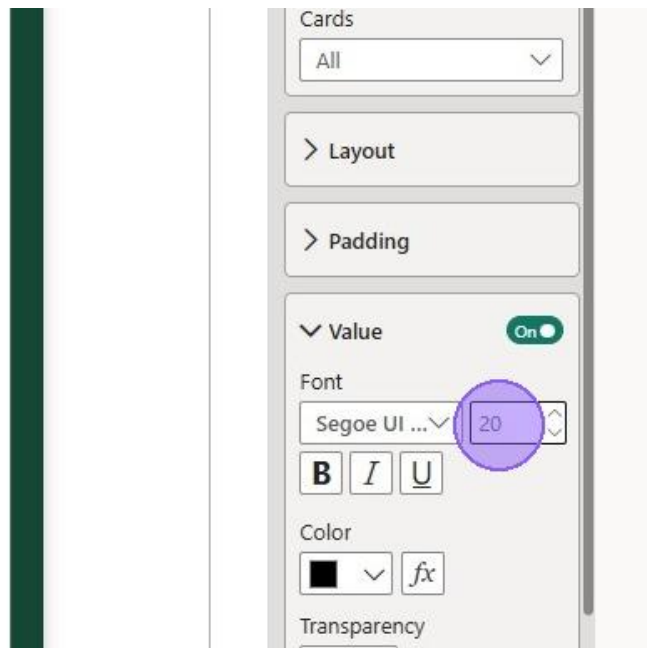

- > Size and style
- > Title ☐ Off
- > Multi-category layout
- > Category header
- > Multi-card layout
- > Cards
- > Callout
- > Image
- > Reference labels layout
- > Reference labels

16. Click "Value"

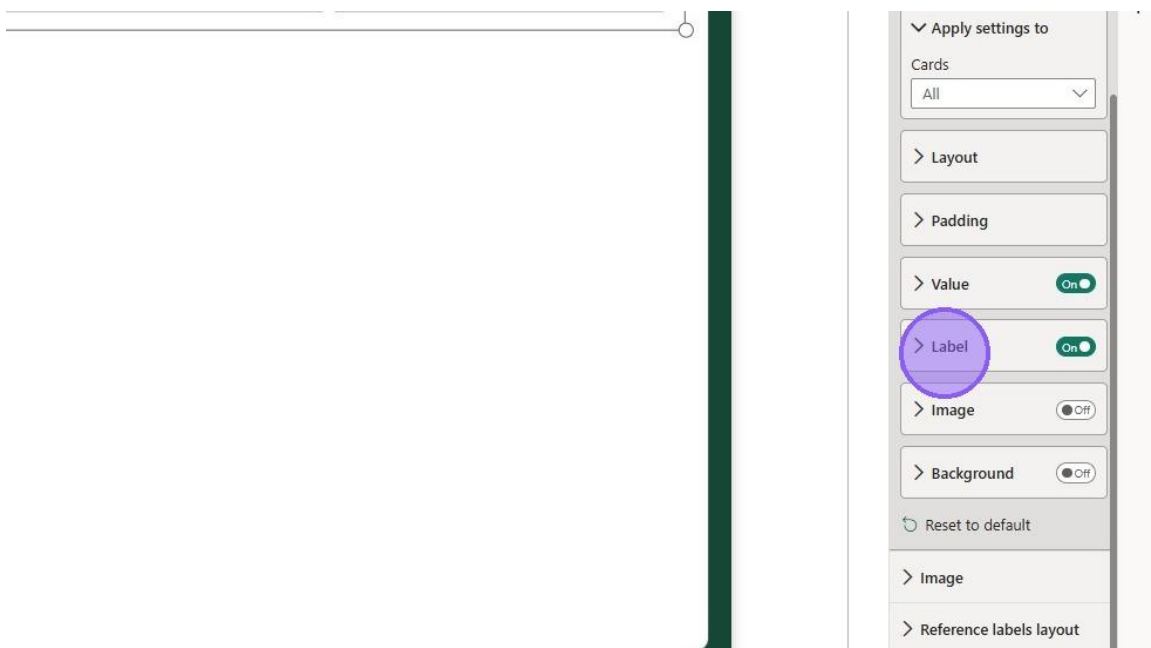

Net Deposits #	Enrolled #
----------------	------------

- > Callout
 - > Apply settings to
 - Cards
 - All
 - > Layout
 - > Padding
 - > Value ☒ On
 - > Label ☒ On
 - > Image ☐ Off
 - > Background ☐ Off
 - Reset to default
 - > Image

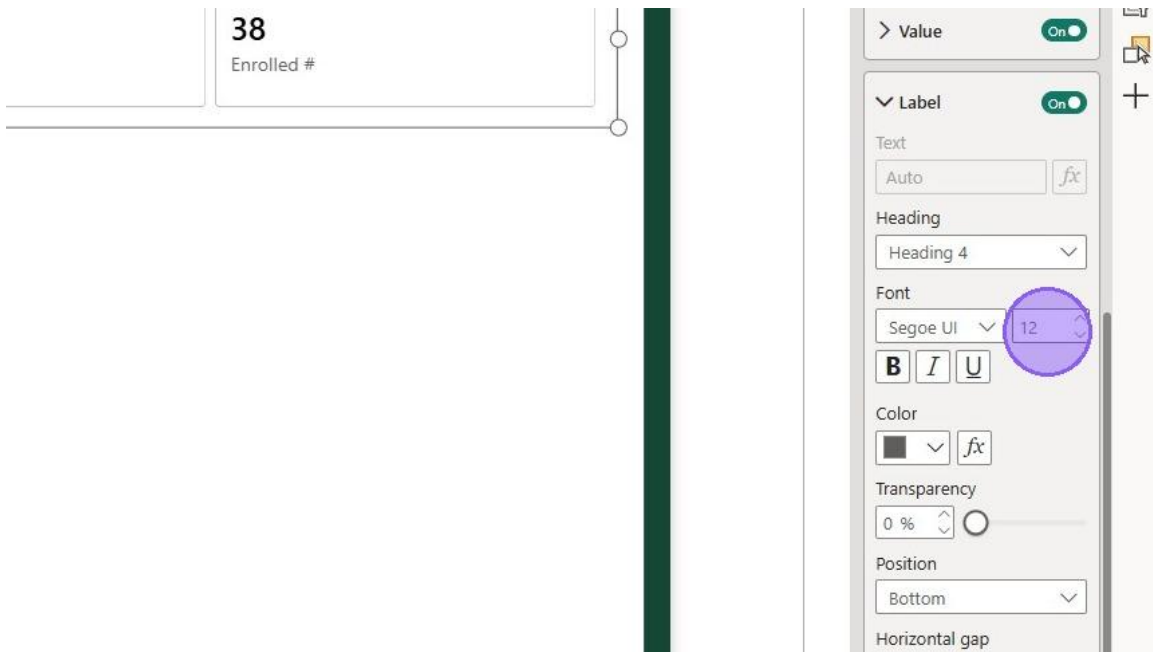

17. Change font size to 20

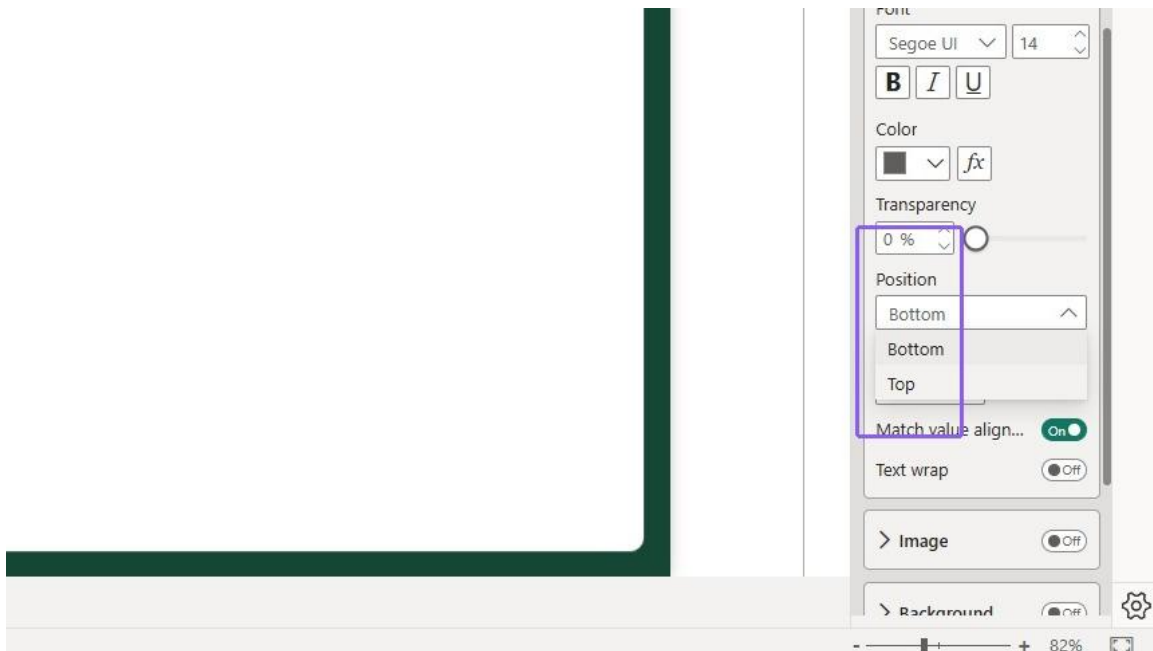

18. Click "Label"

19. Click "Font Size" and type 14

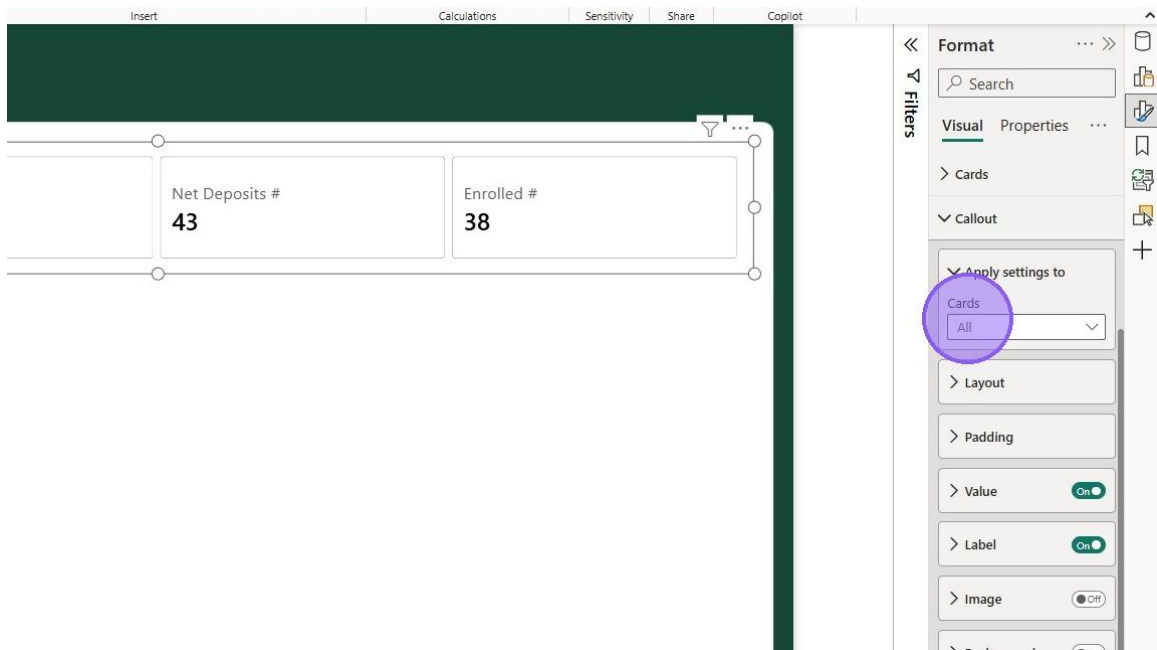

20. Click "Top" from the Position dropdown box

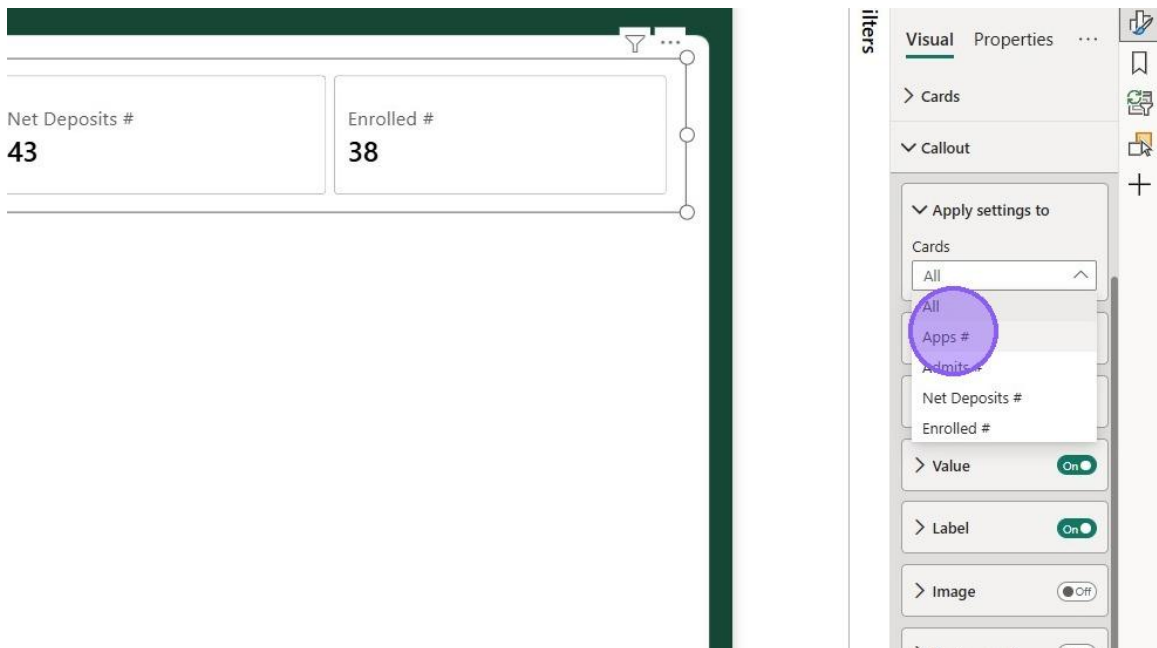

Add icons to KPI's

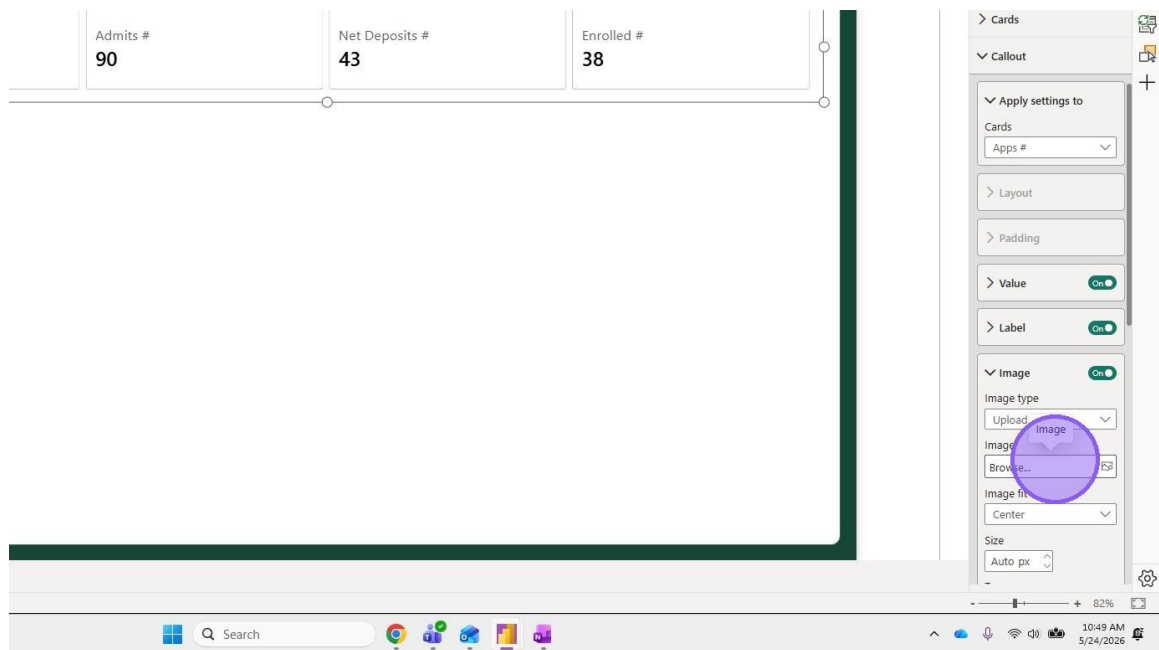

21. Click "Cards All"

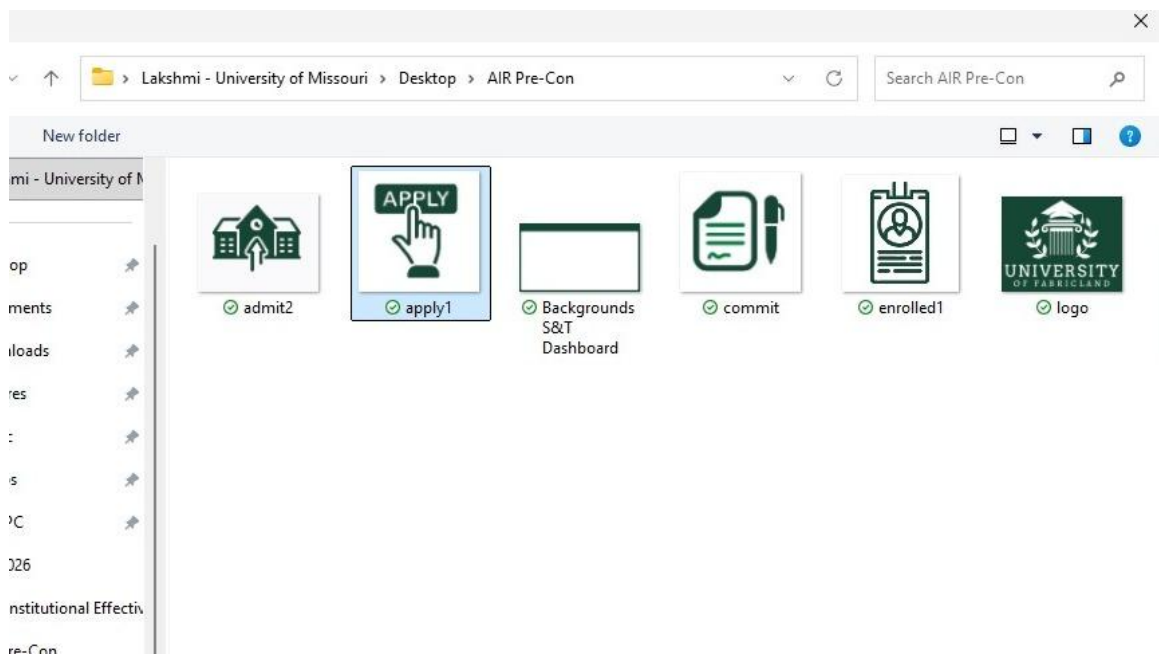

22. Click Apps #

23. Switch on Image and Click "Image Browse..."

24. Double-click "apply1"

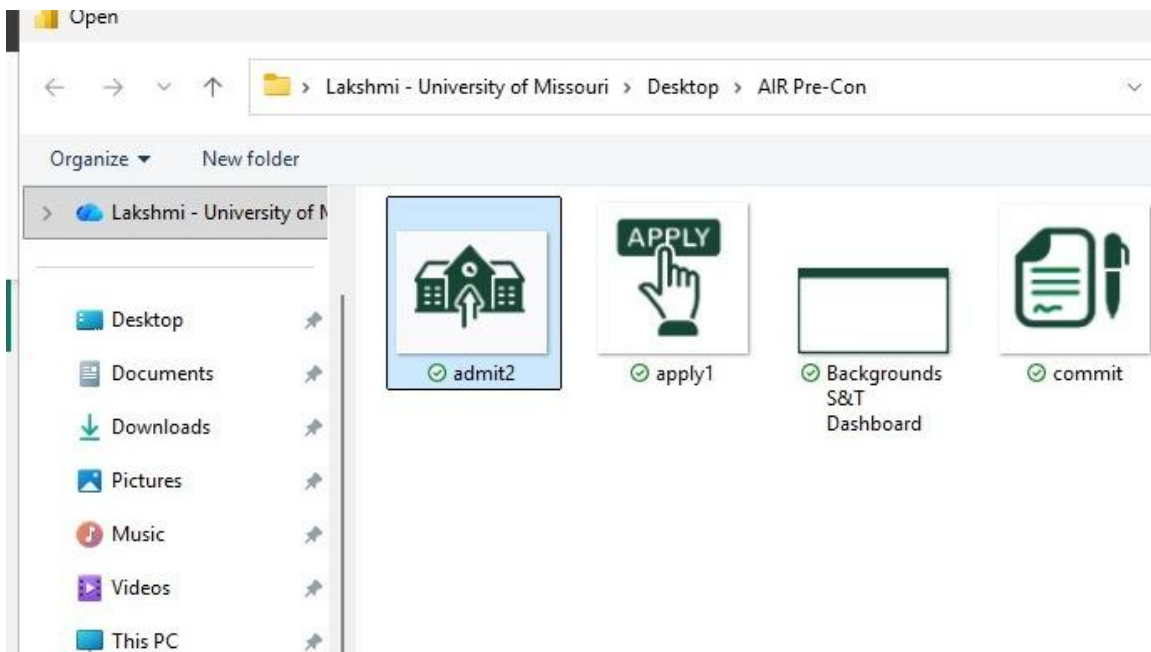

25. Click "Admits #"

The screenshot shows a data visualization tool interface. On the left, a card displays two data points: 'Net Deposits #' with a value of 43, and 'Enrolled #' with a value of 38. On the right, a 'Filters' panel is open, showing a search bar and a list of filters. The 'Admits #' filter is selected and highlighted with a red circle. Below the filters, there are sections for 'Apply settings to', 'Value', 'Label', and 'Image'.

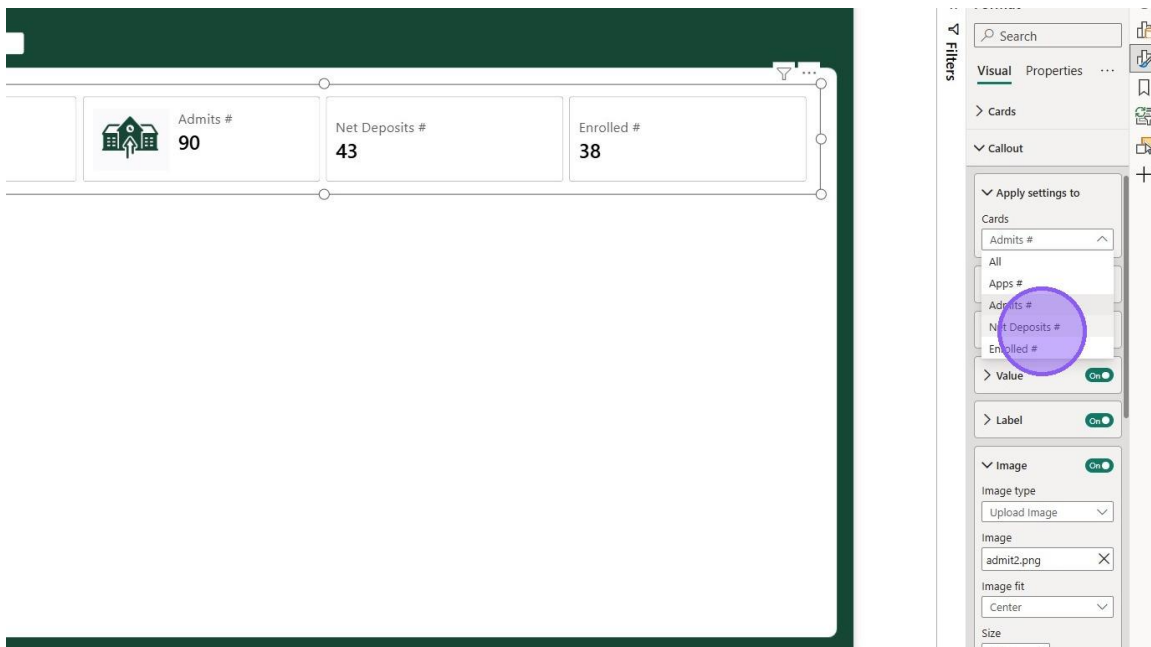

26. Click "Image Browse..."

The screenshot shows the same data visualization tool interface. The card now displays three data points: 'Admits #' with a value of 90, 'Net Deposits #' with a value of 43, and 'Enrolled #' with a value of 38. The 'Filters' panel is still open, and the 'Image' section is expanded. The 'Image Browse...' option is selected and highlighted with a red circle. The Windows taskbar is visible at the bottom of the screen, showing the search bar and various application icons.

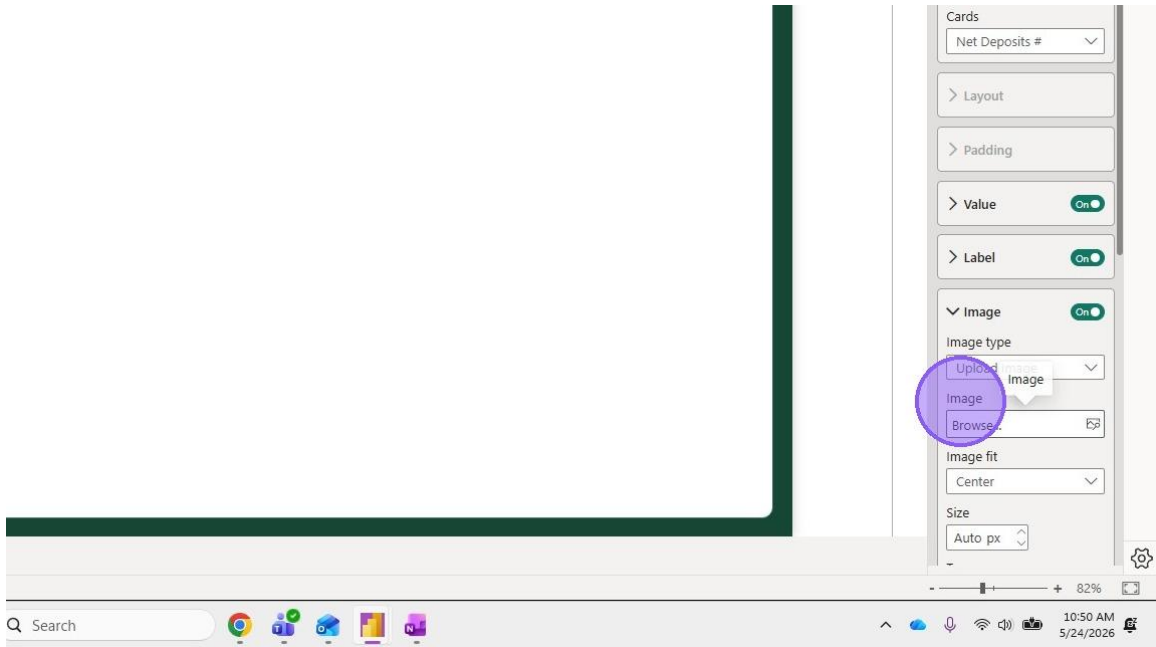

27. Double-click "admit2"

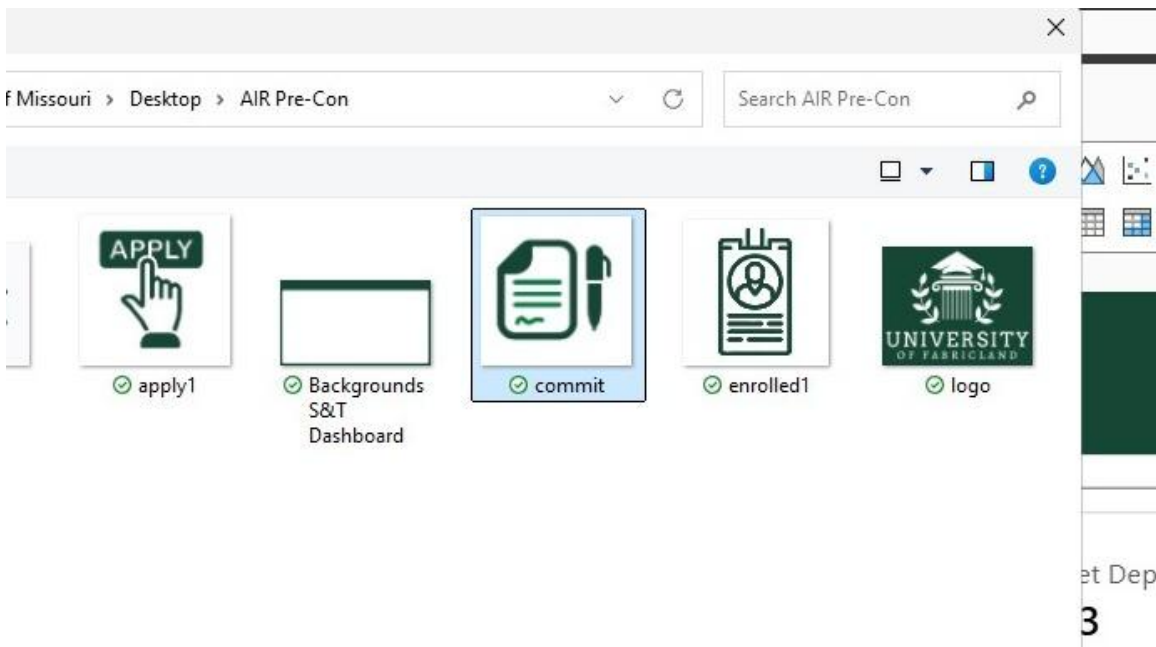

28. Click "Net Deposits #"

29. Click "Image Browse..."

30. Double-click "commit"

31. Click "Enrolled #"

The screenshot shows a dashboard with three cards. The first card, 'Admits #', has a value of 90. The second card, 'Net Deposits #', has a value of 43. The third card, 'Enrolled #', has a value of 38. The 'Enrolled #' card is selected, and its settings are visible in the right-hand pane. The 'Value' property is highlighted with a red circle.

Card	Value
Admits #	90
Net Deposits #	43
Enrolled #	38
