

5. Add context to KPI Cards + Formatting

Lets add more context to the KPI Cards according to Business Logic

Add New Measures for Prior Cycle

1. Add these new measures

Admits # Prior Cycle =

```
CALCULATE(  
[Admits #],  
FILTER(  
ALL( Dim_Term ),  
Dim_Term[Acad_Year] = MAX( Dim_Term[Acad_Year] ) - 1  
&& Dim_Term[Term] = MAX( Dim_Term[Term] )  
)  
)
```

Apps # Prior Cycle =

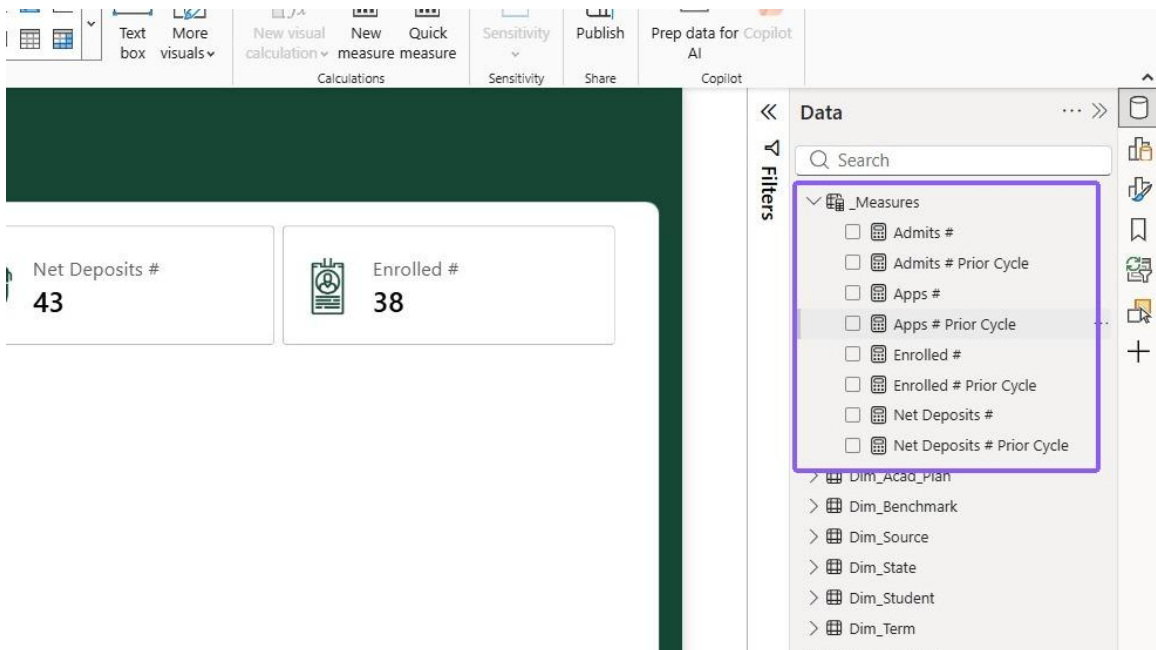

```
CALCULATE(  
COUNTROWS( Fact_Applications ),  
FILTER(  
ALL( Dim_Term ),  
Dim_Term[Acad_Year] = MAX( Dim_Term[Acad_Year] ) - 1  
&& Dim_Term[Term] = MAX( Dim_Term[Term] )  
)  
)
```

Net Deposits # Prior Cycle =

```
CALCULATE(  
[Net Deposits #],  
FILTER(  
ALL( Dim_Term ),  
Dim_Term[Acad_Year] = MAX( Dim_Term[Acad_Year] ) - 1  
&& Dim_Term[Term] = MAX( Dim_Term[Term] )  
)  
)
```

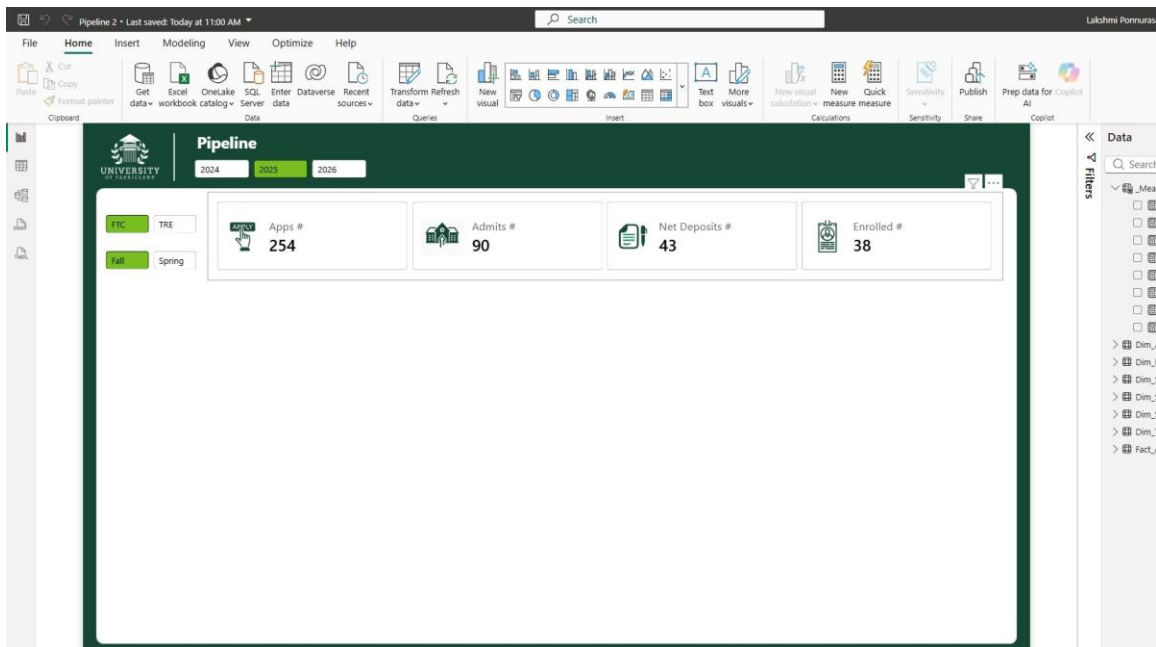

Enrolled # Prior Cycle =

```
CALCULATE(  
[Enrolled #],  
FILTER(  
ALL( Dim_Term ),  
Dim_Term[Acad_Year] = MAX( Dim_Term[Acad_Year] ) - 1  
&& Dim_Term[Term] = MAX( Dim_Term[Term] )  
)
```

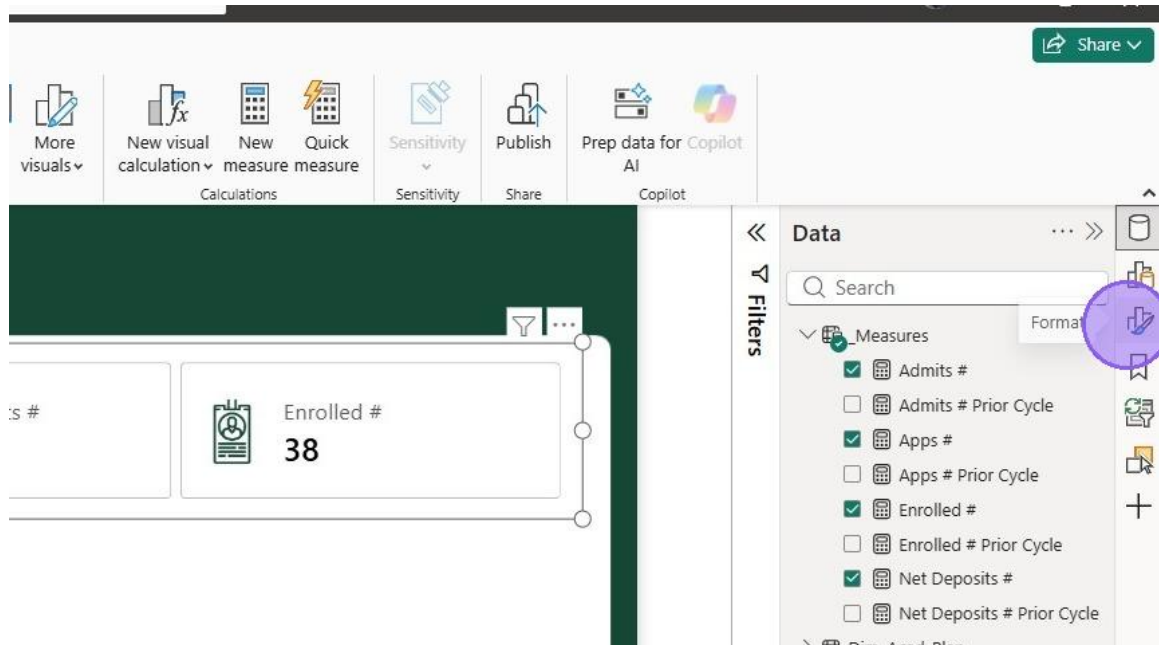

Add Reference Labels

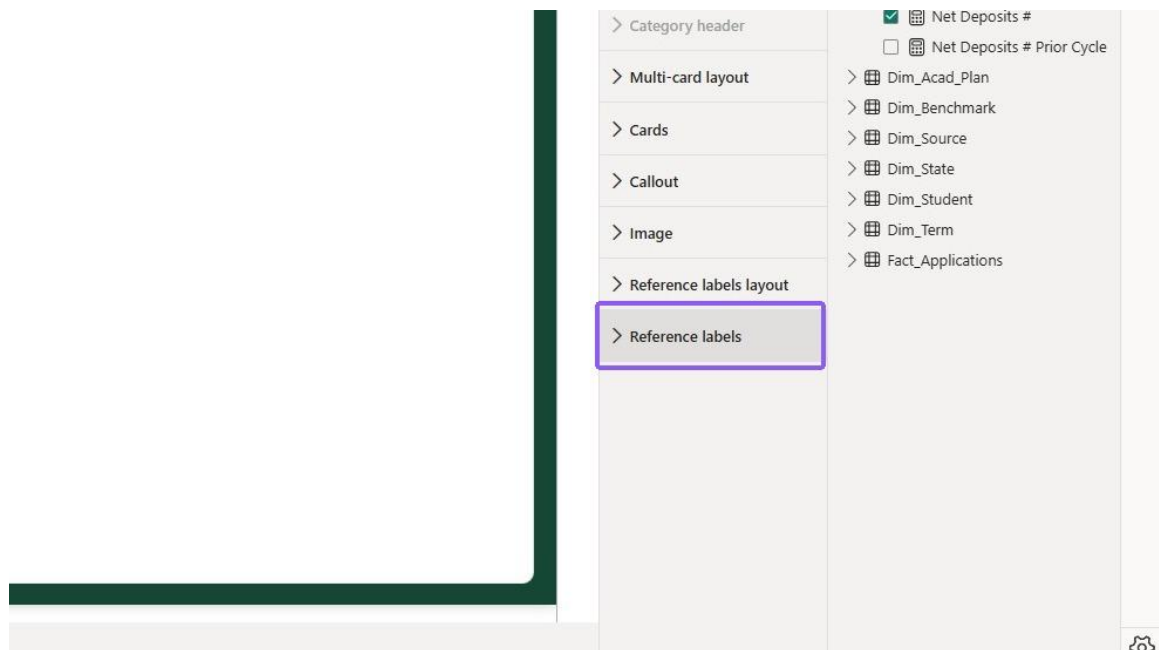

2. Select the card visual on report canvas.

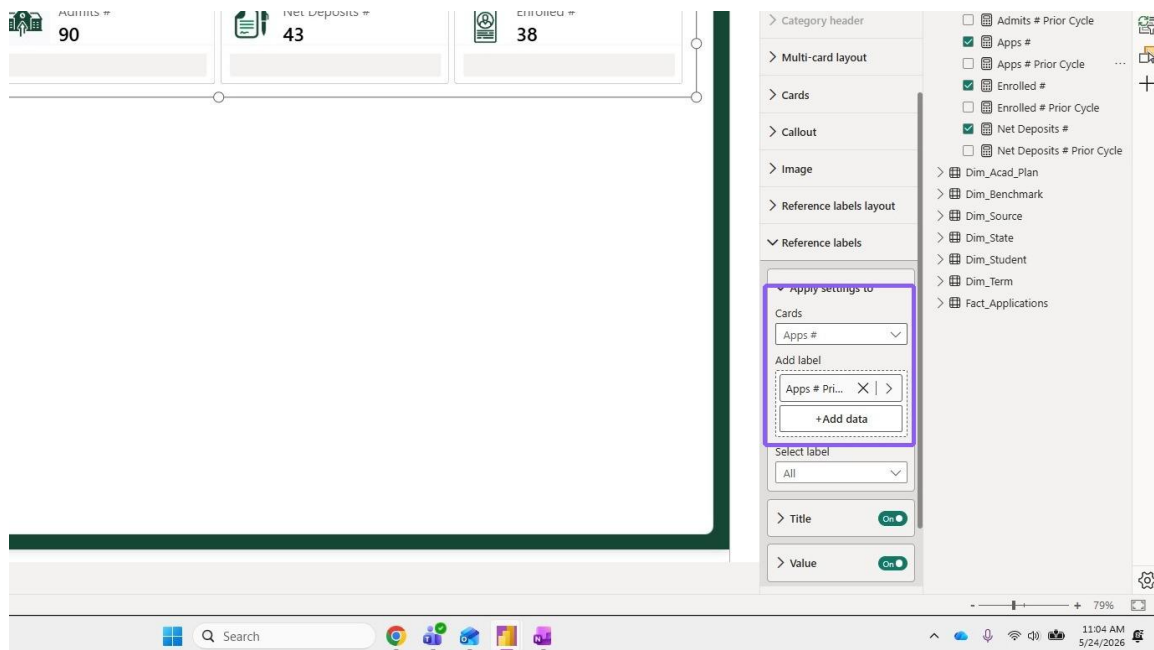

3. Navigate to 'Format' tab.

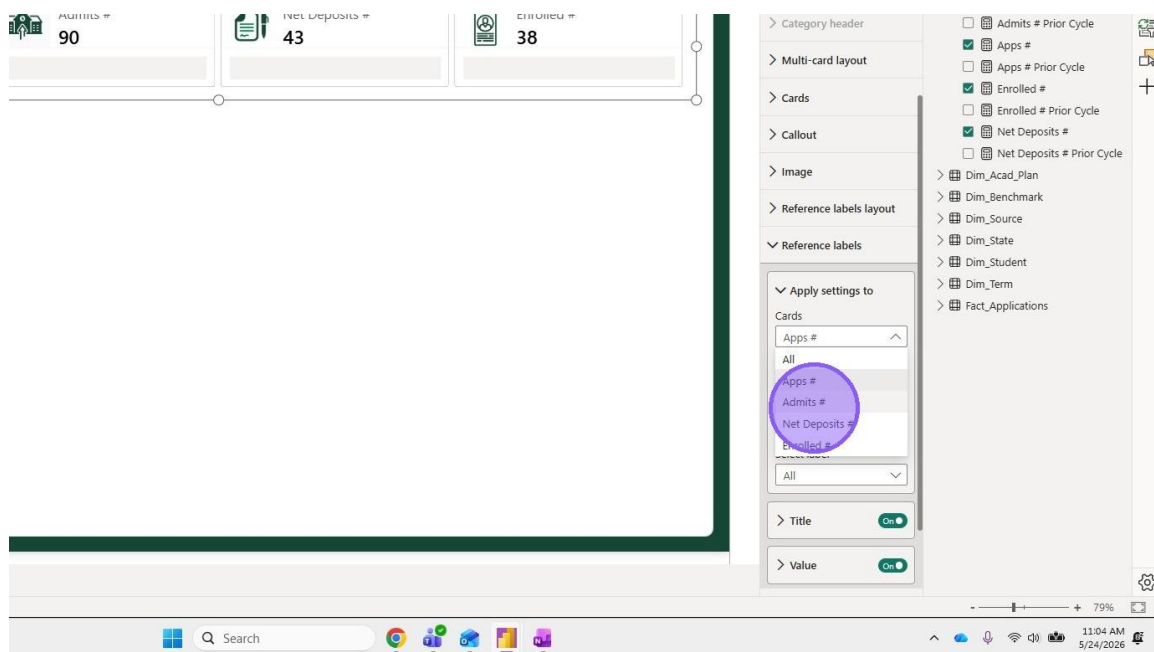

4. Expand 'Reference labels' section.

5. Click "Apps #" under Cards and drag drop the Apps # Prior Cycle to the Add Label field well

6. Click "Admits #"

7. Click "Admits #" and add reference label

The screenshot shows a dashboard configuration interface. On the left, a dashboard preview displays three cards: 'Admits #' with a value of 90, 'Net Deposits #' with a value of 43, and 'Enrolled #' with a value of 38. Below these, a timeline shows 'Admits # Prior Cycle 81'. The right-hand pane is the configuration menu. Under the 'Reference labels layout' section, the 'Reference labels' subsection is expanded. The 'Apply settings to' dropdown is set to 'Cards'. The 'Cards' dropdown is set to 'Admits #'. The 'Add label' section shows 'Admits # P...' with a red box highlighting the 'Add data' button. The 'Select label' dropdown is set to 'All'. The 'Title' and 'Value' sections are both set to 'On'. The bottom of the screen shows a Windows taskbar with a search bar and various application icons.

8. Click "Net Deposits #" and add reference label

The screenshot shows the same dashboard configuration interface as the previous one, but now the 'Net Deposits #' card is being configured. The dashboard preview on the left now shows 'Net Deposits # Prior Cycle 69' under the timeline. In the configuration menu on the right, the 'Apply settings to' dropdown is still set to 'Cards', but the 'Cards' dropdown is now set to 'Net Deposits #'. The 'Add label' section shows 'Net Deposi...' with a red box highlighting the 'Add data' button. The 'Select label' dropdown is still set to 'All'. The 'Title' and 'Value' sections are both set to 'On'. The bottom of the screen shows the same Windows taskbar.

9. Repeat with Enrolled

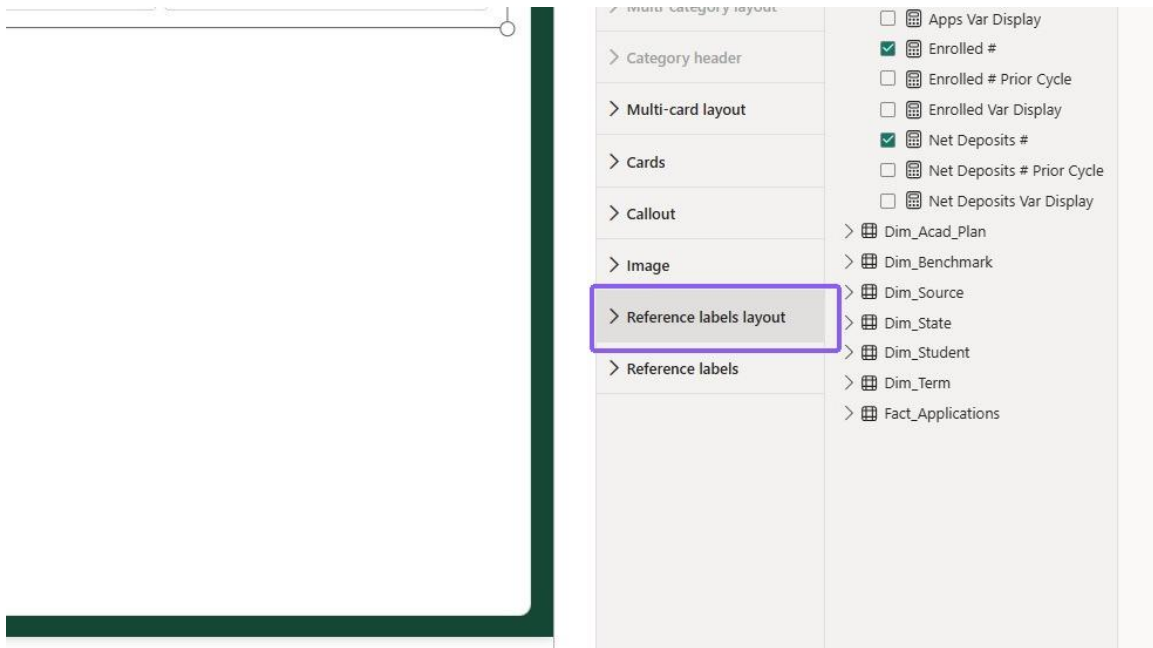

The screenshot shows the Power BI Desktop interface. The main view displays three cards: 'Admits #' with a value of 90, 'Net Deposits #' with a value of 43, and 'Enrolled #' with a value of 38. Below each card is a label for the prior cycle: 'Admits # Prior Cycle 81', 'Net Deposits # Prior Cycle 69', and 'Enrolled # Prior Cycle 55'. The 'Format' pane on the right is open, showing the 'Visual' tab. The 'Reference labels' section is expanded, and the 'Apply settings to' dropdown is set to 'Cards'. The 'Add label' button is highlighted with a red box.

10. It should look like this now!

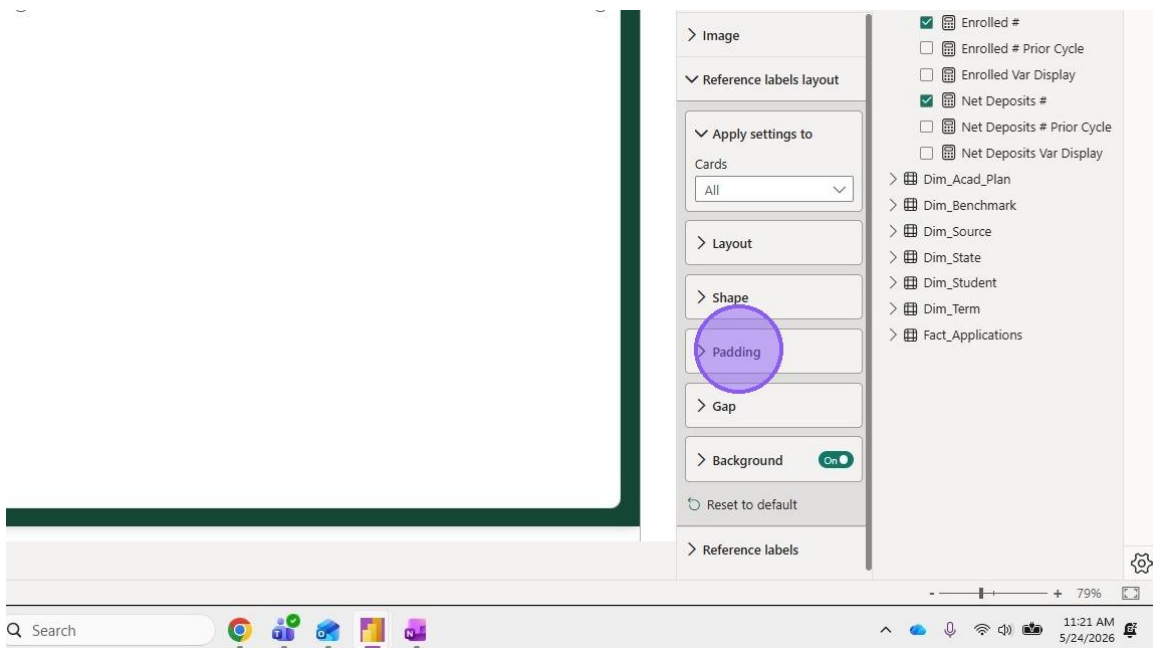

The screenshot shows the final dashboard layout. The top navigation bar includes 'me', 'Insert', 'Modeling', 'View', 'Optimize', 'Help', 'Format', and 'Data / Drill'. The main view displays four cards: 'Apps #' with a value of 254, 'Admits #' with a value of 90, 'Net Deposits #' with a value of 43, and 'Enrolled #' with a value of 38. Below each card is a label for the prior cycle: 'Apps # Prior Cycle 290', 'Admits # Prior Cycle 81', 'Net Deposits # Prior Cycle 69', and 'Enrolled # Prior Cycle 55'. The 'Format' pane on the right is open, showing the 'Visual' tab. The 'Reference labels' section is expanded, and the 'Apply settings to' dropdown is set to 'Cards'. The 'Add label' button is highlighted with a red box.

Reference Label Formatting

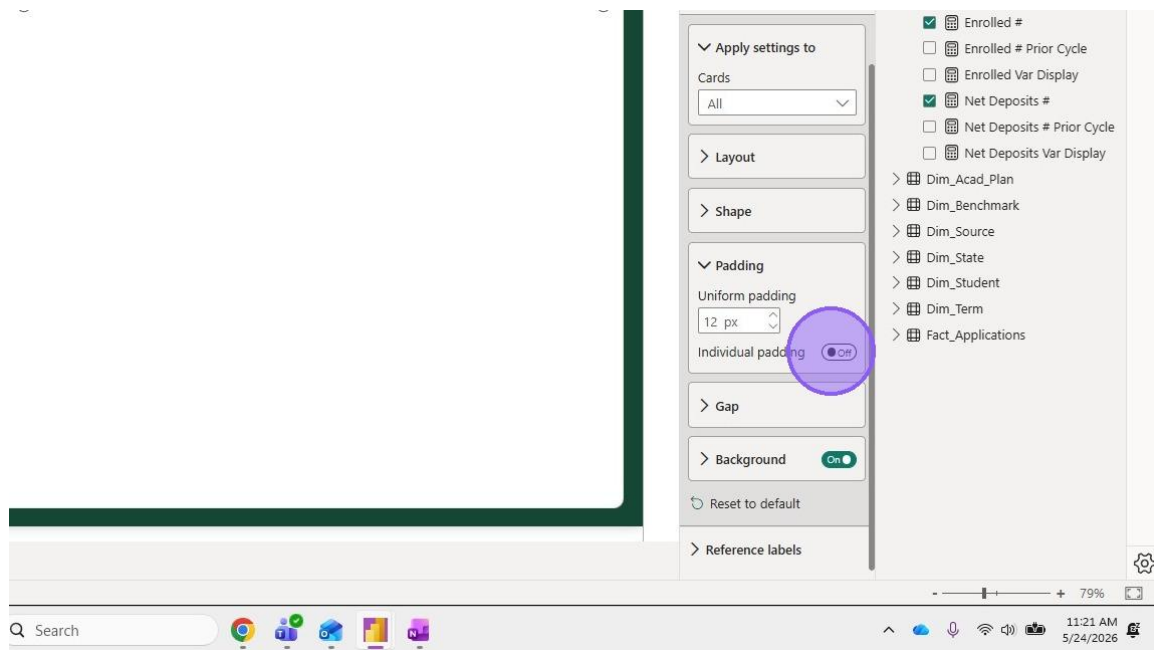

11. Click "Reference labels layout"

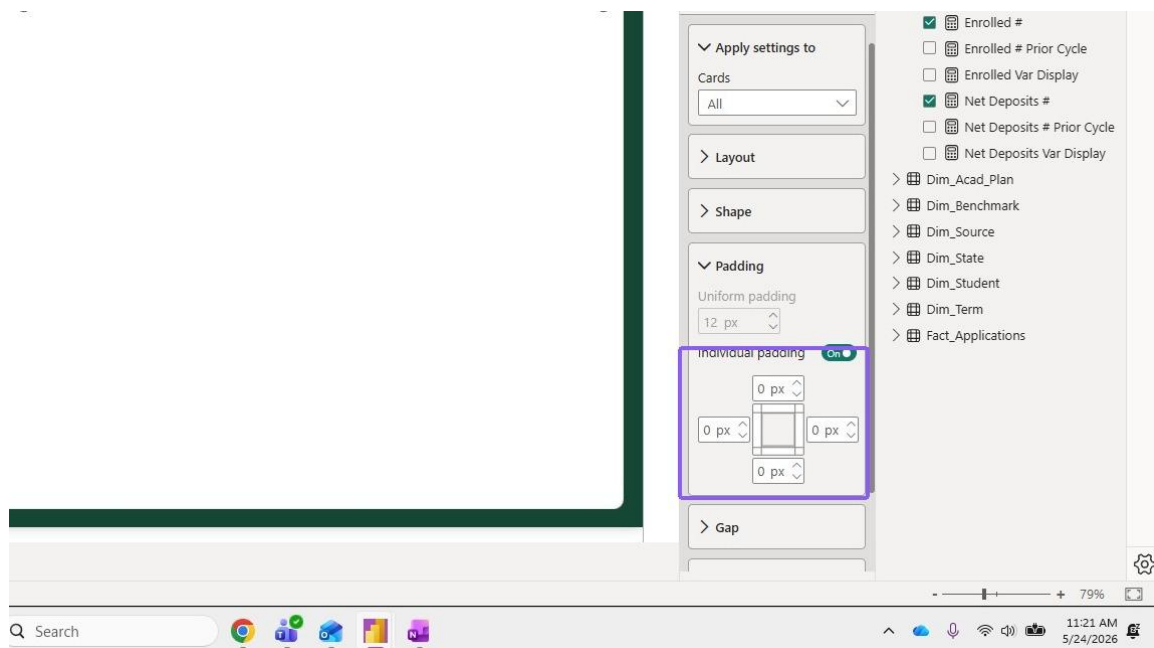

12. Click "Padding"

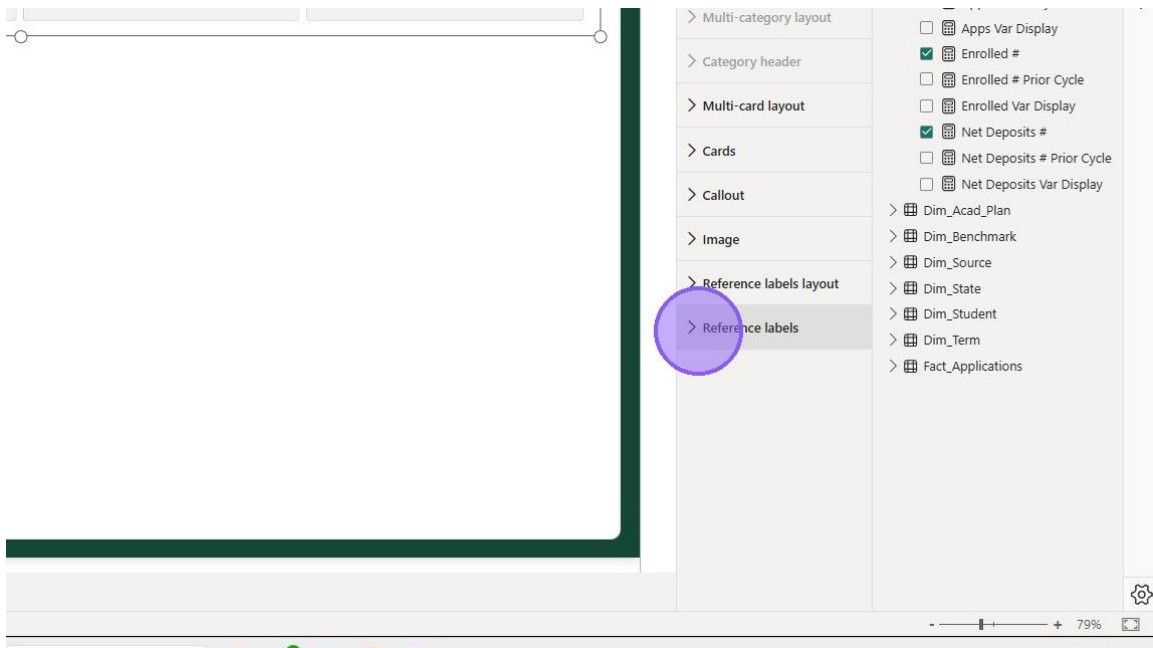

13. Switch on Individual Padding

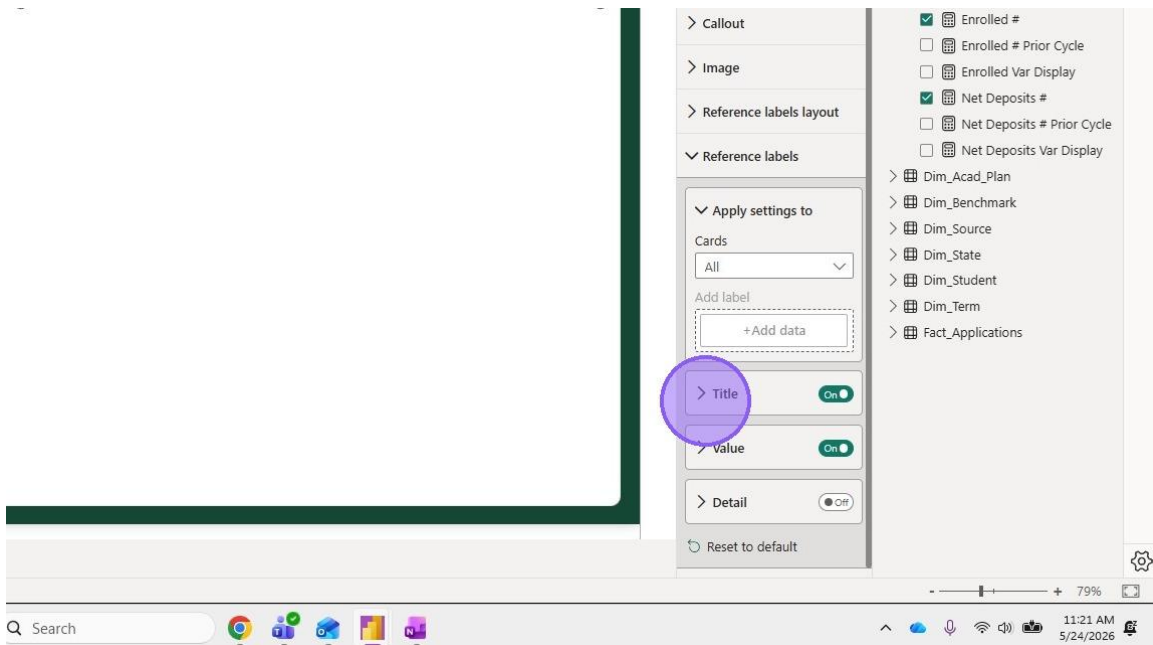

14. Click "Padding"

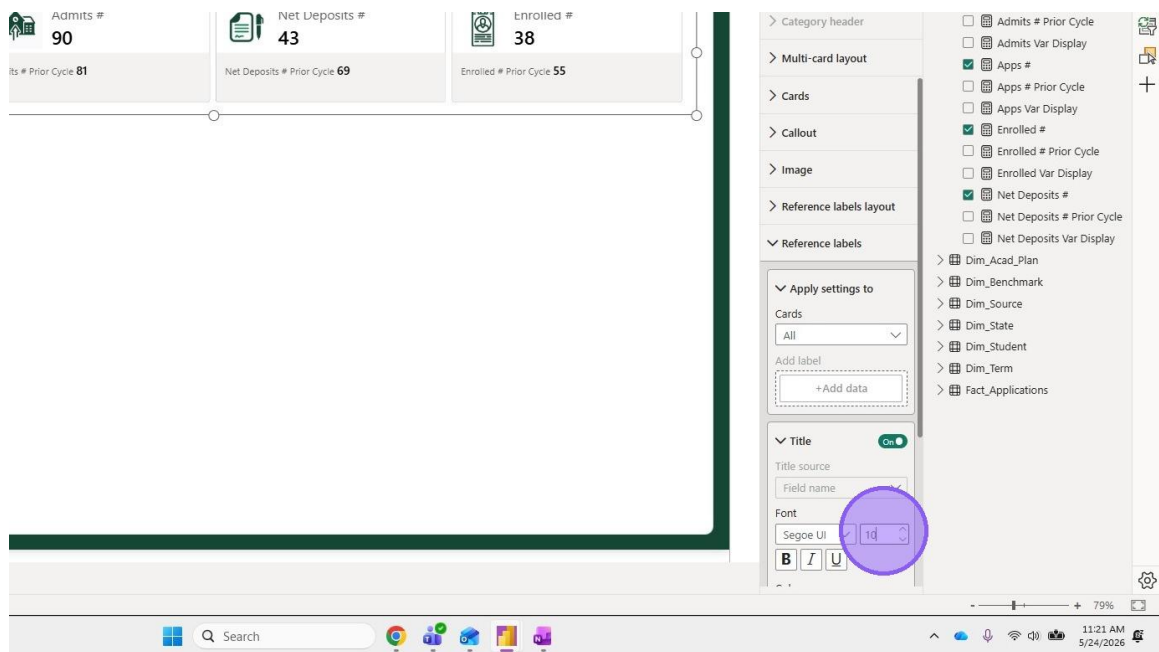

15. Click "Reference labels"

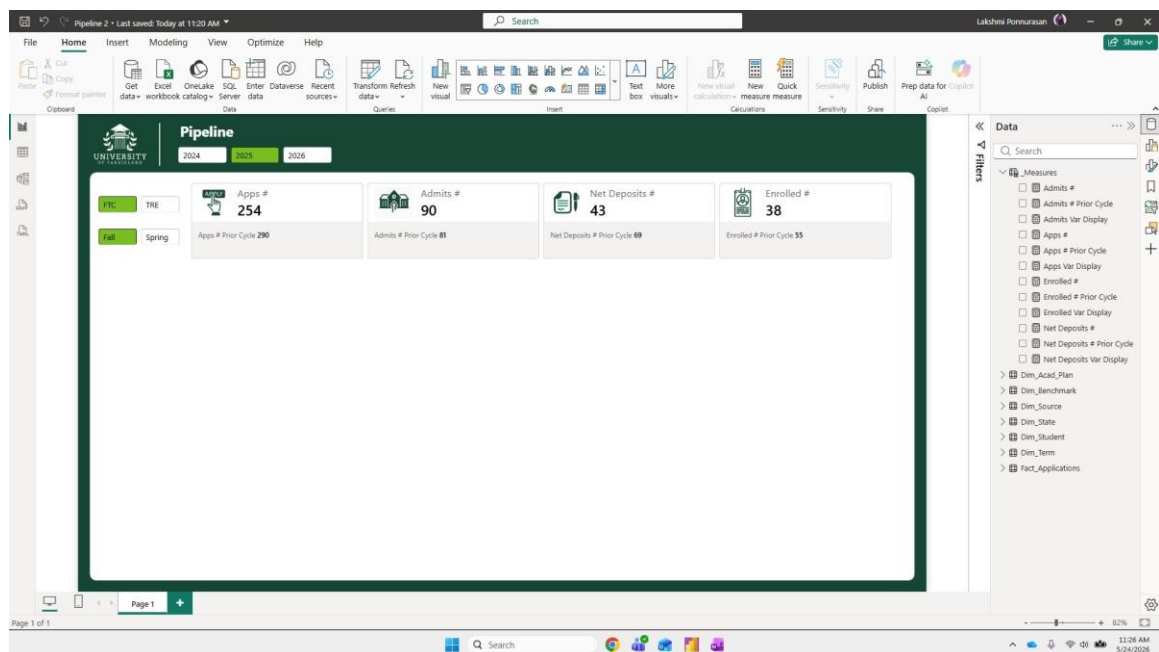

16. Click "Title"

17. Click "Font Size" and change to 10

18. It should look like this!

Add details to the reference label

19. Add the below new measures to add Variance values

Apps Var Display =

VAR Curr = [Apps #]

VAR Prev = [Apps # Prior Cycle]

VAR VarValue = Curr - Prev

VAR VarPct = DIVIDE(VarValue, Prev)

VAR Arrow =

SWITCH(

TRUE(),

VarValue > 0, UNICHAR(9650), -- ▲ Up

VarValue < 0, UNICHAR(9660), -- ▼ Down

UNICHAR(8212) -- —

)

RETURN

Arrow

& " "

& FORMAT(VarValue, "#,0")

& " ("

& FORMAT(VarPct, "0.0%")

& ")"

Admits Var Display =

VAR Curr = [Admits #]

VAR Prev = [Admits # Prior Cycle]

VAR VarValue = Curr - Prev

VAR VarPct = DIVIDE(VarValue, Prev)

VAR Arrow =

SWITCH(

TRUE(),

VarValue > 0, UNICHAR(9650), -- ▲ Up

VarValue < 0, UNICHAR(9660), -- ▼ Down

UNICHAR(8212) -- —

)

RETURN

Arrow

& " "

& FORMAT(VarValue, "#,0")

& " ("

& FORMAT(VarPct, "0.0%")

& ")"

Net Deposits Var Display =

```
VAR Curr = [Net Deposits #]  
VAR Prev = [Net Deposits # Prior Cycle]
```

```
VAR VarValue = Curr - Prev  
VAR VarPct = DIVIDE(VarValue, Prev)
```

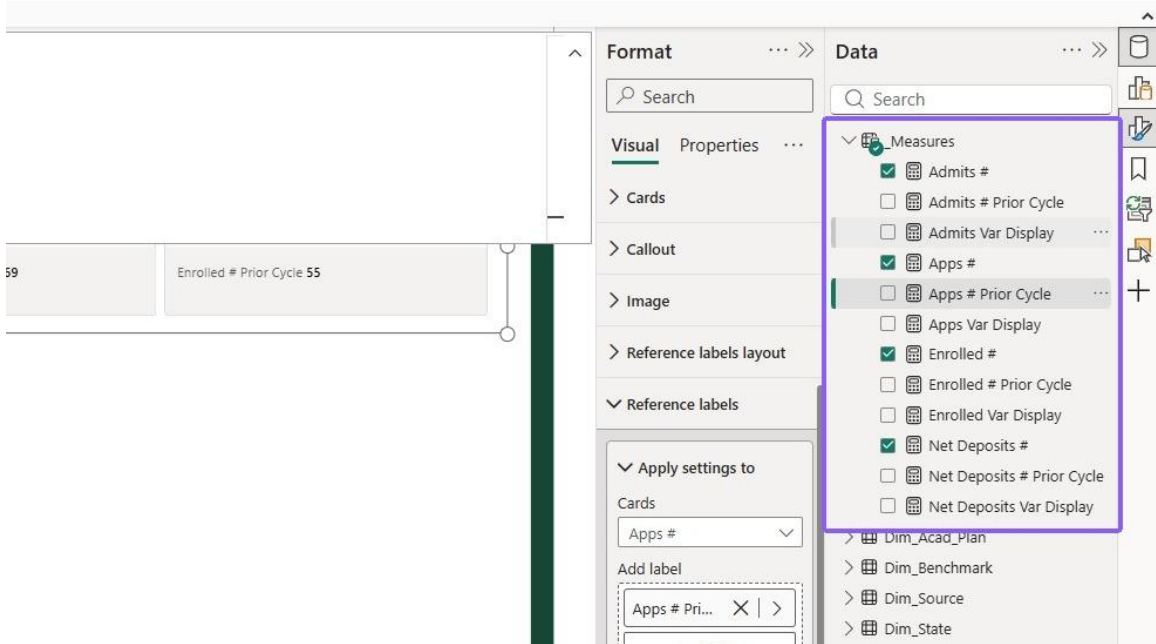

```
VAR Arrow =  
SWITCH(  
TRUE(),  
VarValue > 0, UNICHAR(9650), -- ▲ Up  
VarValue < 0, UNICHAR(9660), -- ▼ Down  
UNICHAR(8212) -- —  
)
```

```
RETURN  
Arrow  
& " "  
& FORMAT(VarValue, "#,0")  
& " ("  
& FORMAT(VarPct, "0.0%")  
& ")"  
Enrolled Var Display =  
VAR Curr = [Enrolled #]  
VAR Prev = [Enrolled # Prior Cycle]
```

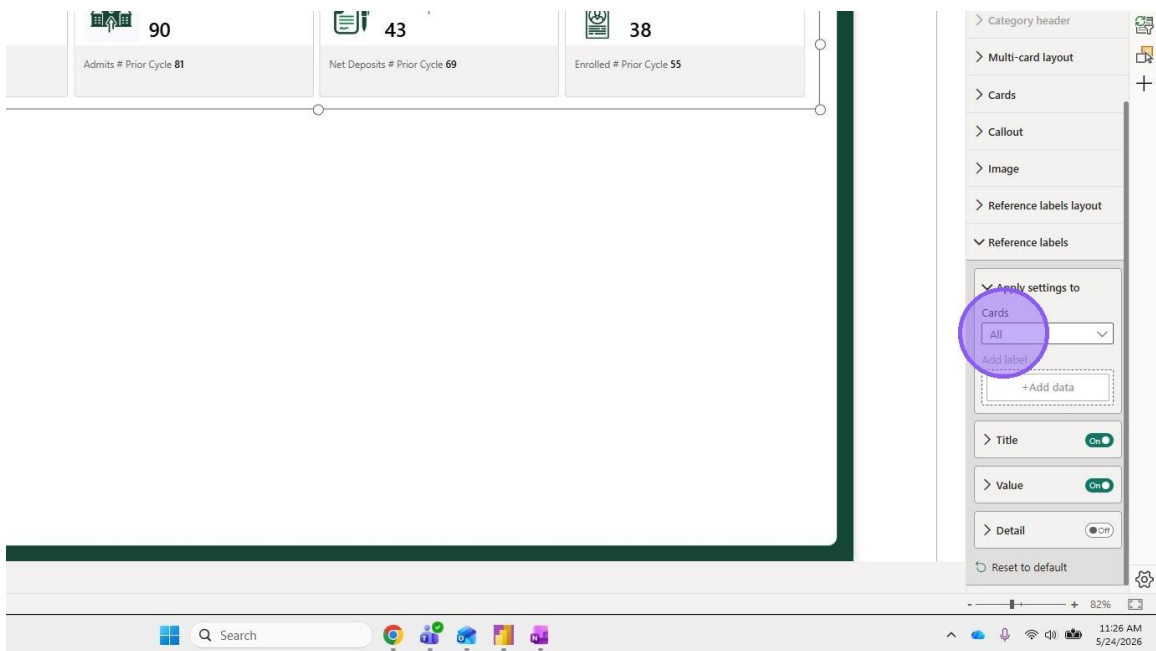

```
VAR VarValue = Curr - Prev  
VAR VarPct = DIVIDE(VarValue, Prev)
```

```
VAR Arrow =  
SWITCH(  
TRUE(),  
VarValue > 0, UNICHAR(9650), -- ▲ Up  
VarValue < 0, UNICHAR(9660), -- ▼ Down  
UNICHAR(8212) -- —  
)
```

```
RETURN  
Arrow  
& " "  
& FORMAT(VarValue, "#,0")  
& " ("  
& FORMAT(VarPct, "0.0%")  
& ")"
```

20. Now lets add these measures to the visual

21. Click "Apps #"

The screenshot shows a dashboard with three cards at the top: "Admits # Prior Cycle 81" with a value of 90, "Net Deposits # Prior Cycle 69" with a value of 43, and "Enrolled # Prior Cycle 55" with a value of 38. A settings sidebar is open on the right. Under the "Reference labels" section, the "Apply settings to" dropdown is expanded, showing options: "All", "Apps #", "Admits #", "Net Deposits #", and "Enrolled #". The "Apps #" option is circled in purple. The Windows taskbar at the bottom shows the search bar, task icons, and system tray with the time 11:26 AM on 5/24/2026.

22. Click "Select label All"

This screenshot shows the same dashboard as the previous one, but the settings sidebar is in a different state. In the "Reference labels" section, the "Add label" area now contains a label "Apps # Pri..." with a close button and a right arrow. Below it is an "Add data" button. The "Select label" dropdown is open, showing "All" as the selected option, which is circled in purple. Other settings like "Title", "Value", and "Detail" are visible below. The Windows taskbar at the bottom remains the same, showing the time 11:26 AM on 5/24/2026.

23. Select the Prior Cycle measure from the dropdown

The screenshot shows a dashboard with three cards at the top: 'Admits # Prior Cycle 81' with a value of 90, 'Net Deposits # Prior Cycle 69' with a value of 43, and 'Enrolled # Prior Cycle 55' with a value of 38. Below the cards is a large empty area. On the right side, there is a settings panel. In the 'Reference labels' section, the 'Select label' dropdown menu is open, and the option 'Apps # Prior Cycle' is highlighted with a purple circle. The Windows taskbar at the bottom shows the search bar, task icons, and system tray with the time 11:26 AM and date 5/24/2026.

Card Title	Value
Admits # Prior Cycle 81	90
Net Deposits # Prior Cycle 69	43
Enrolled # Prior Cycle 55	38

24. Click "Title"

This screenshot is identical to the one in step 23, showing the same dashboard and settings panel. However, in the 'Reference labels' section, the 'Title' option in the 'Select label' dropdown menu is now highlighted with a purple circle. The Windows taskbar at the bottom remains the same, showing the search bar, task icons, and system tray with the time 11:26 AM and date 5/24/2026.

Card Title	Value
Admits # Prior Cycle 81	90
Net Deposits # Prior Cycle 69	43
Enrolled # Prior Cycle 55	38

25. Click "Field name"

The screenshot shows a dashboard with three cards. The first card, titled 'Admits #', displays the value '90' and a subtitle 'Admits # Prior Cycle 81'. The second card, titled 'Net Deposits #', displays '43' and 'Net Deposits # Prior Cycle 69'. The third card, titled 'Enrolled #', displays '38' and 'Enrolled # Prior Cycle 55'. To the right is a 'Properties' panel with a 'Visual' tab. In the 'Title' section, the 'Title source' dropdown is open, and 'Field name' is selected, highlighted by a purple circle. Other options in the dropdown include 'Field name' and 'Field name'. The 'Value' and 'Detail' sections are also visible.

Admits #	Net Deposits #	Enrolled #
90	43	38
Admits # Prior Cycle 81	Net Deposits # Prior Cycle 69	Enrolled # Prior Cycle 55

26. Click Custom

This screenshot is identical to the previous one, but the 'Custom' option in the 'Title source' dropdown is now selected, highlighted by a purple circle. The 'Field name' option is still visible in the dropdown list.

Admits #	Net Deposits #	Enrolled #
90	43	38
Admits # Prior Cycle 81	Net Deposits # Prior Cycle 69	Enrolled # Prior Cycle 55

27. Edit the text to required text

The screenshot shows three cards in a report:

- Admits #**: 90 (Admits # Prior Cycle: 81)
- Net Deposits #**: 43 (Net Deposits # Prior Cycle: 69)
- Enrolled #**: 38 (Enrolled # Prior Cycle: 55)

The **Format** pane on the right is open, showing the **Visual** tab. The **Title** section is expanded, and the **Text** property for the **Prior Cycle** label is being edited. The text is currently "Prior Cycle" and is highlighted with a purple circle.

28. Switch on the Detail

The screenshot shows the same three cards as in the previous step. The **Format** pane on the right is open, and the **Detail** property is being switched on. The **Detail** toggle is highlighted with a purple circle.

The **Format** pane also shows the **Value** property, which is currently set to "On".

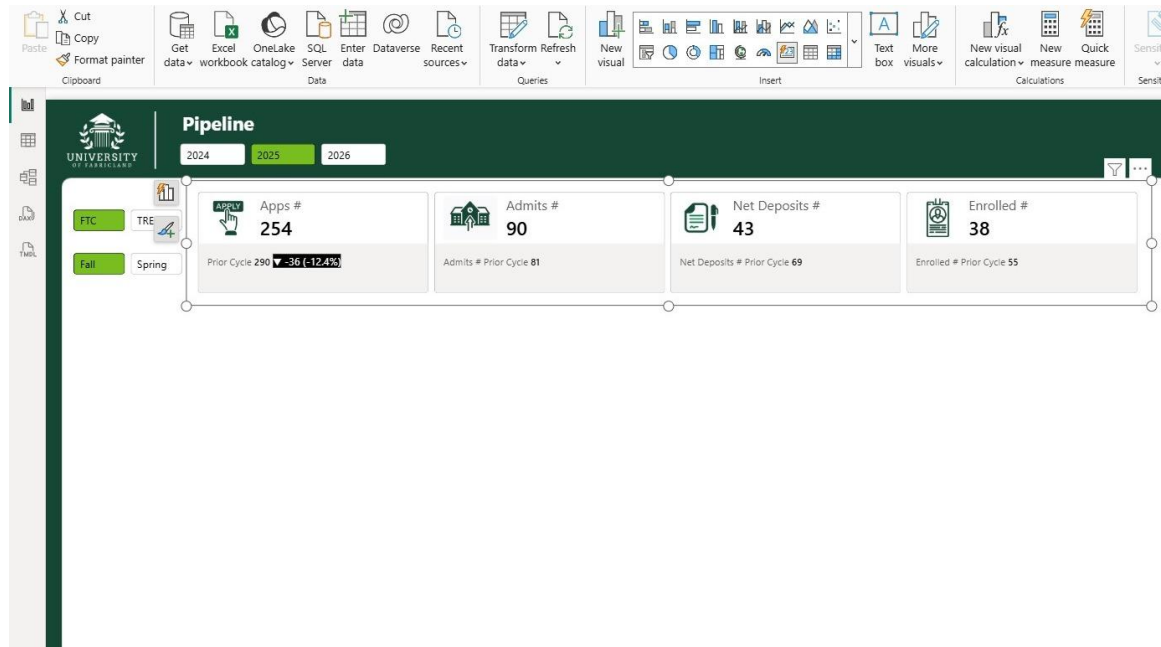

29. Add the new measure into the data field well. (Apps Var Display)

The screenshot shows a Power BI Desktop interface. On the left, a dashboard with a dark green header and footer contains three cards. The first card, 'Admits #', shows a value of 90 and a filter 'Its # Prior Cycle 81'. The second card, 'Net Deposits #', shows a value of 43 and a filter 'Net Deposits # Prior Cycle 69'. The third card, 'Enrolled #', shows a value of 38 and a filter 'Enrolled # Prior Cycle 55'. On the right, the 'Visual Properties' pane is open, showing the 'Data' field with a value of 'Apps Var D...'. The 'Detail' section is expanded, and the 'Data' field is highlighted with a purple box. The 'Measures' list on the right includes 'Admits #', 'Admits # Prior Cycle', 'Admits Var Display', 'Apps #', 'Apps # Prior Cycle', 'Apps Var Display', 'Enrolled #', 'Enrolled # Prior Cycle', 'Enrolled Var Display', 'Net Deposits #', 'Net Deposits # Prior Cycle', and 'Net Deposits Var Display'. The 'Dim_Acad_Plan', 'Dim_Benchmark', 'Dim_Source', 'Dim_State', 'Dim_Student', 'Dim_Term', and 'Fact_Applications' dimensions are also listed.

30. Change font size to 11

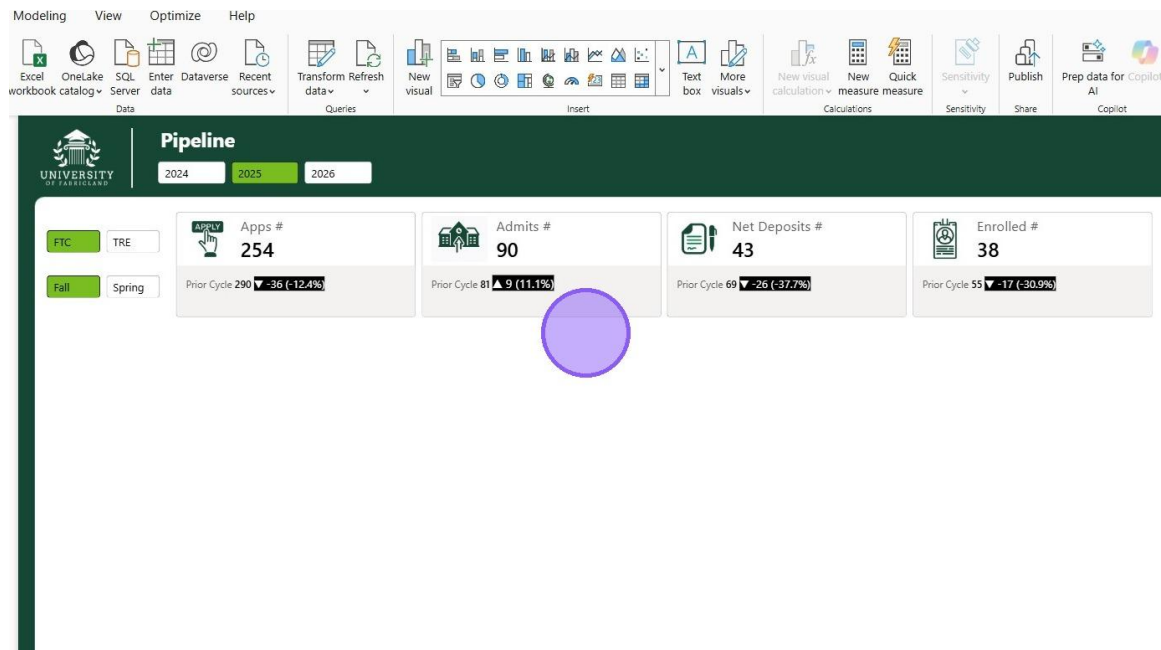

The screenshot shows the same Power BI Desktop interface as in step 29. The 'Visual Properties' pane is open, and the 'Data' field is highlighted with a purple box. The font size for the 'Apps Var D...' field is being changed from 12 to 11. The 'Measures' list on the right is the same as in step 29. The 'Dim_Acad_Plan', 'Dim_Benchmark', 'Dim_Source', 'Dim_State', 'Dim_Student', 'Dim_Term', and 'Fact_Applications' dimensions are also listed. The Windows taskbar at the bottom shows the search bar, taskbar icons, and the system clock displaying 11:34 AM on 5/24/2026.

31. It should look like this now.

32. Repeat the same steps for all the other sections (Admits #, Net Deposits #, Enrolled #)

33. You should see something like this now.

Conditional Formatting of the details

34. Add the below measures for color comparison

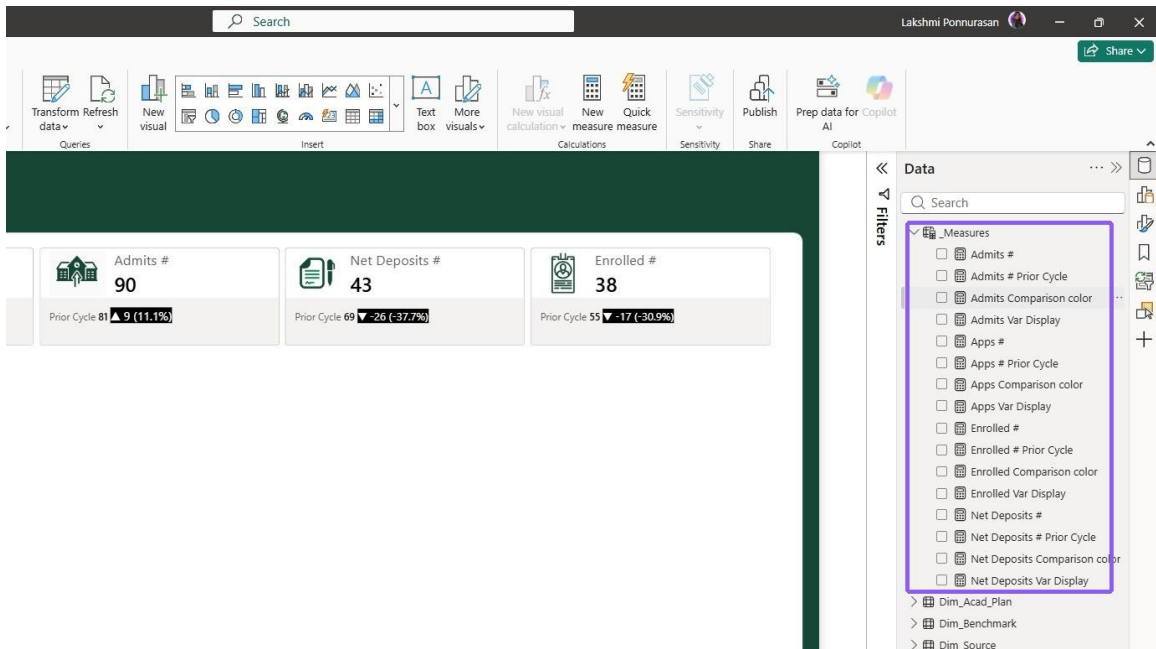

Apps Comparison color =

$\text{VAR_Variance} = [\text{Apps \#}] - [\text{Apps \# Prior Cycle}]$

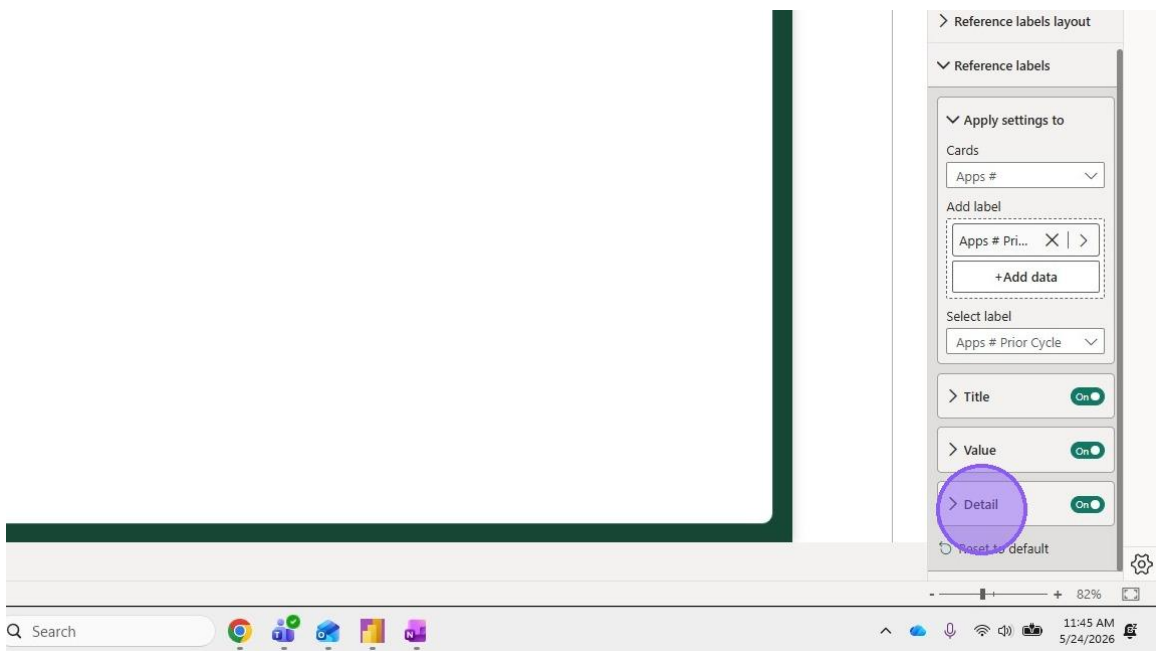

```

RETURN
SWITCH(
TRUE(),
__Variance < 0, "#E87722", //tango
"#509E2F" // Default
)
Admits Comparison color =
VAR __Variance =[Admits #]-[Admits # Prior Cycle]
RETURN
SWITCH(
TRUE(),
__Variance < 0, "#E87722", //tango
"#509E2F" // Default
)
Net Deposits Comparison color =
VAR __Variance = [Net Deposits #]-[Net Deposits # Prior Cycle]
RETURN
SWITCH(
TRUE(),
__Variance < 0, "#E87722", //tango
"#509E2F" // Default
)
Enrolled Comparison color =
VAR __Variance = [Enrolled #]-[Enrolled # Prior Cycle]
RETURN
SWITCH(
TRUE(),
__Variance < 0, "#E87722", //tango
"#509E2F" // Default
)

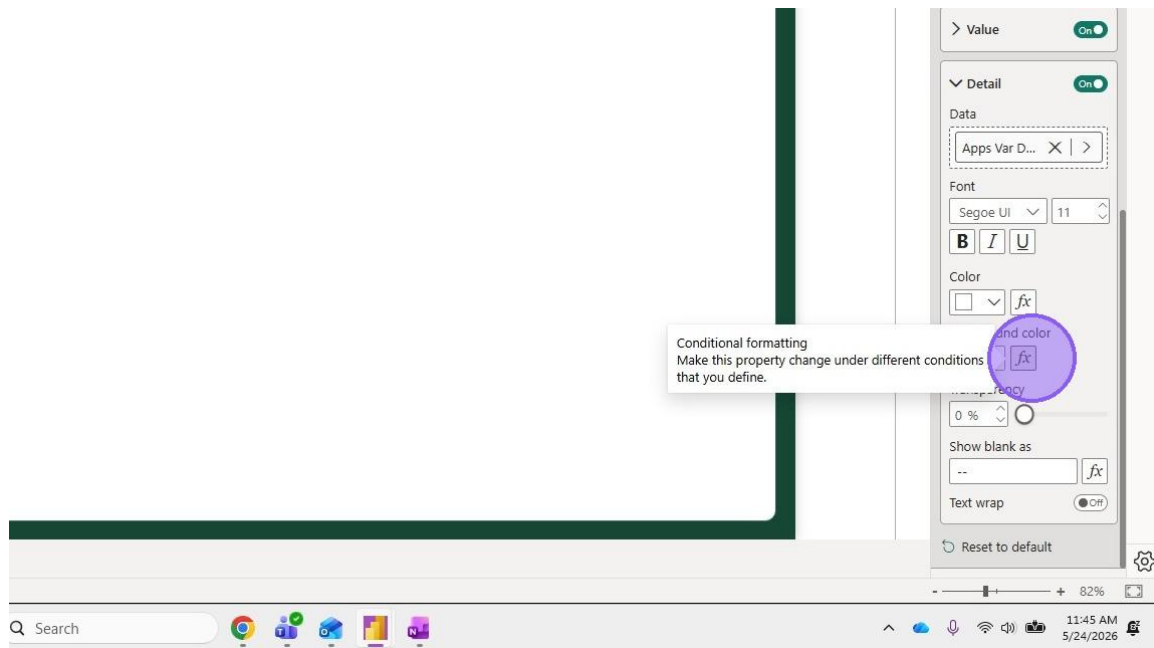

```

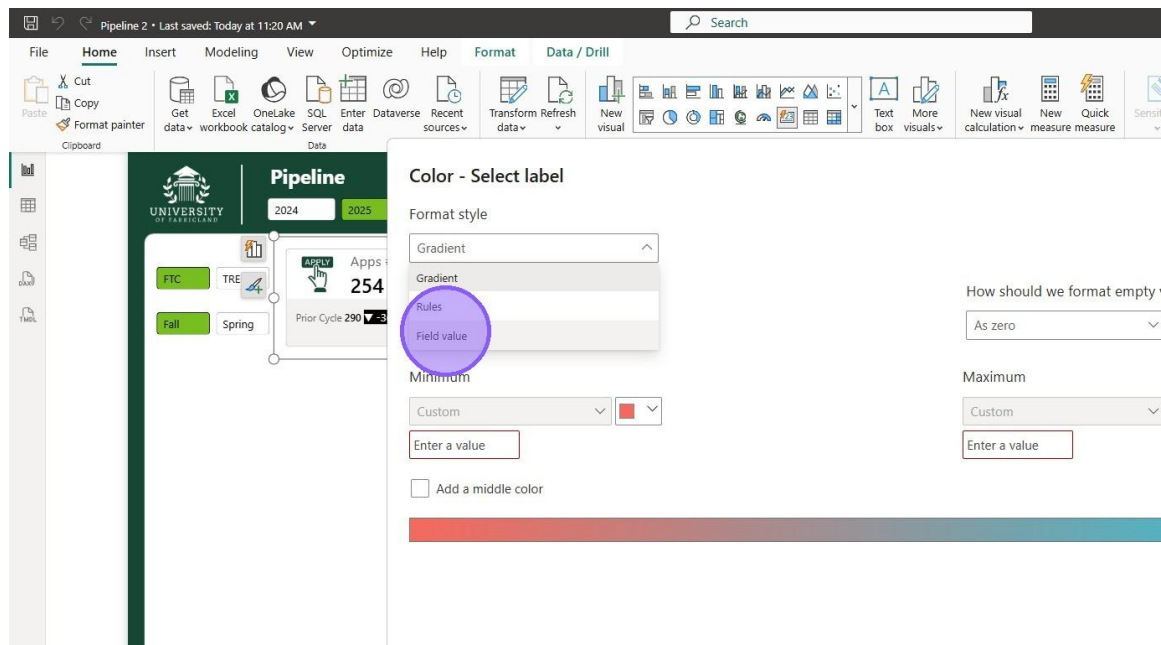

35. Go to Reference labels. Select card. Select Label. Navigate to Detail

36. Click fx next to Background Color

37. Click "Field value" from Format Style dropdown

38. Click "Apps Comparison color"
